## Gentlemen, Notice!

While many of you are often thinking of "shoe comfort," we are always thinking about it, and it affords us great pleasure to state that

WE ARE SOLE AGENTS FOR THE NETTLETON SHOE

And have just unpacked a new shipment of this perfect make. If quality could talk, the din of street cars would be inaudible.

## McCandless Bros. & Cathcart

555 Johnson Street - Victoria, B. C.

## Prominent Banquets

The following is a partial list of high-class functions held during the month of March, when G. H. Mumm & Co's. Champagnes were used exclusively:

- 9 Mars.—Reception offerte au Corps Diplomatique et aux Représentants du Gouvernement Mexicain par S. E. l'Ambassadeur des Etats-Unis au Mexique.  
(G. H. MUMM'S CORDON ROUGE.)
- 10 Mars.—Banquet offert par le Senat de Hambourg en l'honneur de S. E. le Ministre Resident de Russie.  
(G. H. MUMM'S EXTRA DRY.)
- 12 Mars.—Reception en l'honneur de L. L. A. A. R. R. le Prince Heritier Ferdinand et la Princesse Marie de Roumanie au Ministre des Affaires Etrangères a Bucarest.  
(G. H. MUMM'S EXTRA DRY.)
- 13 Mars.—Diner offert par S. A. R. le Prince Regent de Baviere a l'occasion de l'anniversaire de sa naissance.  
(CHAMPAGNE G. H. MUMM.)
- 16 Mars.—Banquet offert par le President de la Republique du Mexique au Corps Diplomatique et aux Représentants du Gouvernement Mexicain en l'honneur de S. E. l'Ambassadeur des Etats-Unis.  
(G. H. MUMM'S EXTRA DRY.)
- 22 Mars.—Receptions de S. M. le Tsar de Bulgarie au Palais Imperial de Constantinople.  
(G. H. MUMM'S EXTRA DRY.)
- 28 Mars.—Banquet offert a l'Ex-President Roosevelt par S. A. le Prince Fouad, al Calire.  
(G. H. MUMM'S CORDON ROUGE.)

## SUBMARINE CREW HAD NO CHANCE

Circumstances Held to Indicate That Whole Company Were Drowned Through Shattering of Inner Shell of Vessel

## STORY OF RAPPINGS NOW DISCREDITED

Wreck Relocated After Being Shifted by Currents—Endeavors Made to Hoist it to Surface

CALAIS, France, May 27.—The French submarine Pluviose, which was sunk by the cross-channel steamer Pas de Calais yesterday, was again located tonight after having been driven from her mud moorings at the bottom of the English Channel today by the swift lower currents.

Tonight various craft are moored above the spot where lies the plunger with her dead company of 27 men, sending down divers in endeavors to fasten chains about the wreck so that it may be raised to the surface.

That the men in the Pluviose all perished is the belief of the naval officers who are assisting in the wrecking operations. Naphtha on the surface of the water leads them to the belief that the inner shell of the submarine was shattered by the blow and that all the crew were drowned.

The report that divers heard rappings from inside the Pluviose is now discredited.

**Must Charge For Beer Kegs**  
TORONTO, May 27.—The railway commission this afternoon decided that as the railway act, to guard against discrimination, provides that no company may render a service without charge, the railways may not carry empty beer barrels back to breweries free. This will bring back business to the express companies. The return by freight would be 65 cents, and by express 15 cents on a 32 gallon keg.

**New Catholic College**  
CHATHAM, N. B., May 27.—A new provincial college is to be opened here for English-speaking Catholic students in the provinces. It is understood that it is to be under the direction of the Basilian Fathers of Toronto, who direct the colleges of St. Michael's, Toronto, and Sandwick, Ont. The college will provide education for both boarders and day students. It may be affiliated with the University of New Brunswick. The building here formerly known as St. Michel's College, will be the seat of the new institution.

**G. N. STEAMER SUNK**  
Strikes Snag at Ainsworth, on Kootenay Lake, and Goes to Bottom—Her People Safe.

NELSON, B. C., May 27.—The Great Northern steamer Kaslo, Capt. J. E. Moore in command, plying between Nelson and Kaslo on Kootenay lake, struck a sunken pile while going into Ainsworth on the up trip this morning and sank. The passengers' upper railings are visible, and she is resting on a sandy bottom, but the extent of the injuries are not known here. Passengers and crew were taken ashore safely, and later taken to Kaslo by the C. P. R. steamer Kokanee.

**Smallest Man in Canada**  
HALIFAX, May 27.—Edward Hupman, probably the smallest man in Canada, died yesterday at his home in Allendale, N. S. He was thirty-eight years of age. His height was two feet nine inches, and he weighed thirty pounds. He had been ill for five months with stomach trouble, but the immediate cause of death was paralysis, with which he was stricken on Sunday.

**Canada's Industrial Development**  
LONDON, May 27.—It is understood that Richard Grigg, British trade commissioner to Canada, is preparing a report on Canada's remarkable industrial development, dwelling especially upon business openings for British capital of the kind which are now chiefly seized by Americans.

**May Be Cotton Strike**  
MANCHESTER, Eng., May 27.—The result of the vote of cotton employers on the question of a reduction of five per cent. in wages shows that eighty per cent. of the master spinners favor the proposition. This probably means a strike or lockout, as the employees have declared they will not accept the reduction.

**Fatal Auto Wreck**  
LOGAN, O., May 27.—While returning from a party at midnight an automobile driven by William Snyder, president of a lumber company, ran over an embankment near Youngs-bridge, and Miss Lillian Wright and Miss Flossie Herman were killed.

**Lumber Schooner Wrecked**  
SAN PEDRO, Cal., May 27.—The schooner Dora Blum, 330 tons, Captain Oscar Johnson, out seven days from Coos Bay, for San Pedro, went ashore on Santa Rosa Island Wednesday night and was totally wrecked. Captain Johnson and the crew of six were saved and brought here by a gasoline schooner from Santa Rosa Island today. The Dora Blum was owned by the Pacific Trading Company of San Francisco, and carried 350,000 feet of lumber for the Golden State Lumber Company of this port.

**Saskatchewan Forest Fire**  
WINNIPEG, May 27.—One of the worst fires in the history of the Swan river branch of the Canadian National railway is now raging in the timber belt to the west of Hudson Bay Junction a few miles west of the Manitoba boundary. The first news of the fire reached here when a message from Mistamin said that the fire was working up towards the depot. The fire took a number of poles, and consequently communication is difficult. The Cowan construction company's tie camp was burned out. Apparently the railway has suffered little, the principal damage being done to one of the best timber districts in the west.

## CHOICE OF SEATS FOR NEW PREMIER

Matter of His Election and Selection of Colleagues Still in Uncertainty—Many Names Are Mentioned

EDMONTON, May 27.—It is not yet known where the Premier will run for election, whether in Macleod, Medicine Hat or Cochrane. If he appoints Judge Mitchell as Attorney-General, he will have to leave the constituency of Medicine Hat for him to run in. If he appoints Senator Talbot as Minister of Agriculture and the Fisheries, the Premier will have Cochrane to run in, while Mr. Talbot will have Macleod.

Then again he may appoint some northern lawyer as Attorney-General, and he may leave Hon. C. W. Cross in the cabinet at Hon. Duncan Macleod also. But all this is conjecture, though it is felt to be a pretty far-stretched conjecture to imagine that he will leave Mr. Cross in the cabinet.

Hon. W. H. Cushing, ex-Minister of Public Works, whose resignation brought on the trouble, appears from his boundary dispute, both in the House and outside, to be much disappointed at the turn of events.

George P. Smith, of Camrose, who was slated for Minister of Education in Mr. Cushing's prospective cabinet, also looks unhappy.

Mr. Warneke, Pincher Creek, Mr. Cushing's choice for Minister of Agriculture, is apparently happy, while John R. Boyle, slated by Mr. Cushing for Attorney-General, and very active in opposition to the Rutherford administration, seems to be relieved and delighted.

The resignations of Attorney-General Cross, Minister of Agriculture Marshall, and P. Lessard, minister without portfolio, were handed in yesterday, but the Lieutenant-Governor refused to consider them, leaving this matter to the new Premier.

## POOR COMET BLAMED

Crew of Schooner Voyaging Up St. Lawrence Convinced That They Passed Through Its Tail.

MONTREAL, May 27.—Capt. Robert of the schooner Milne Maude, of Gaspe, now in port, is convinced that his craft passed through the tail of the comet on the night of the 17th, when his schooner was off Point de Monts, about 250 miles below Quebec. The watch became conscious of a heavy sickening odor in the air. It became so oppressive that he could stand it no longer, and called the captain and other members of the crew. All tied handkerchiefs over their mouths, inhaling the stuff having the effect of making them bilious. After half an hour a cold puff of north wind cleared the air.

**Extra Session at Albany.**  
ALBANY, N.Y., May 27.—Governor Hughes today called an extraordinary session of the legislature to meet at the capitol on Monday, June 20 at 8 p.m.

**Danish Ministry Resigns**  
COPENHAGEN, May 27.—The resignation of the cabinet, whose policy of defence failed to receive support in the recent election was placed before King Frederik by Premier Zahle today. His Majesty asked that the ministers continue their work pending the selection of their successors.

## WILL OPERATE ON LARGE SCALE

New Colliery Company Plans Extensive Development of Comox Coal Field—W. L. Coulson Appointed Manager

## MAKE HEADQUARTERS AT UNION BAY

Mr. McCrae, of Fraser River Lumber Co., to Have General Supervision of Business As Managing Director

VANCOUVER, May 27.—It is understood that W. L. Coulson, the Pittsburgh coal mining expert, who recently on behalf of Messrs Mackenzie, Mann & Co. examined the Dunsmuir collieries prior to the second large payment on purchase account, has been offered and accepted the position of general manager of the new holding corporation organized in London, England, and styled the Canadian Collieries (Dunsmuir) Limited.

Mr. Coulson will make his headquarters at the outset at Union Bay in connection with the carrying out of plans for developing the Comox coal field on a vast scale.

It is understood that A. D. McCrae of Vancouver, president of the Fraser River Lumber Company, and a close business associate of Mackenzie & Mann, will, as managing director, exercise general supervision over the mining operations of the new coal corporation.

## Peru Still Sends Troops.

LIMA, Peru, May 27.—Another large contingent of the army is proceeding to the northern frontier today. Despite official assurance from Washington that Peru and Ecuador have accepted the arbitration of the United States, Brazil and Argentina in their boundary dispute, the popular opinion in Peru was inevitable owing to the conditions which Ecuador imposes respecting mediation.

## Alberta Crops

CALGARY, May 27.—The Alberta department of agriculture report shows the total acreage under crop this year 1,582,973; an increase of 27 per cent. over last year. The acreages are as follows: Winter wheat, 128,670; spring wheat, 488,183; oats, 732,460; barley, 147,150; flax, 106,390; timothy, 29,021; rye, 6,335. Reference is made to the rapid expansion of winter wheat culture, and the tone of the report is most optimistic. It has again been demonstrated that the use of irrigation insures the most successful crop of winter wheat. Farmers east of Calgary who irrigated their wheat last fall, have promise of a heavier yield than in other districts where irrigation is not available.

## FEAR FOR LIVES OF SIX PEOPLE

Party Who Left Vancouver for Plumper Pass in Small Boat Not Heard from—Anxious Inquiries by Relatives

VANCOUVER, May 27.—Fearful that some mishap has befallen a party of six people, three women and three men, who left Vancouver one week ago yesterday in a small boat for Plumper Pass in the Gulf of Georgia, Mrs. M. Green, 77 Thirteenth Ave. West, whose daughter was among the number, today reported the matter to the provincial police. She also is causing inquiries to be made on the waterfront of the officers of boats which daily cross the gulf.

The party was to have returned to Vancouver on May 24. It was made up of Mr. and Mrs. Money, residing at the corner of Dunsmuir and Granville streets; Mr. and Mrs. Barrot, also residents of Vancouver; Miss Green, and an Englishman whose name is unknown to Mrs. Green. They left the harbor in an auxiliary sloop, white with green trimmings. The boat was about 22 feet long.

## KILLED BY TRAM CAR

Little Japanese Girl of Vancouver Run Over While Her Mother Watched Helpless.

VANCOUVER, May 27.—A few moments before noon today the four-year-old daughter of Mr. and Mrs. Ishimura, living at 658 Powell street, was struck by a passing street car and instantly killed, the body being terribly mangled. Standing on the curb, holding another child in her arms, and unable to do anything to save her offspring, the mother of the little girl saw her struck by the steps and carried under the wheels of the tram car, from where her dismembered and decapitated body was taken a moment later. Bystanders do not blame Motorman Quayle.

**Fire at Niagara Falls.**  
NIAGARA FALLS, N.Y., May 27.—The plant of the Hooker Development Company, one of the largest chemical concerns in the country, was destroyed by fire early today. The loss is \$400,000.

**Flour Mill Burned**  
KINISTINO, Sask., May 27.—The mill property of the Kinistino Milling Co. was totally destroyed by fire this morning. The loss was \$56,000, and was covered by insurance to the extent of \$33,400 distributed as follows: Guardian, \$18,400; Newrick Union, \$2,000; Atlas, \$5,000, and General of Perth, \$8,000.

**Fire at Chemainus Mill.**  
CHEMAINUS, May 27.—At 6 o'clock this morning fire broke out in the sorting shed of the Victoria Lumber company here. The shed which was about 400 feet long, was practically destroyed. The building stood in front of the mill, but fortunately there was no wind or that too would have been wiped out. The loss on lumber and machinery is estimated at \$8,000. The mill will be able to start up again tomorrow.

**Helping Suffragettes.**  
LONDON, May 27.—A number of members of parliament of all parties have constituted themselves a committee for women suffrage. They aim at settling the question on a plan acceptable to all shades of suffragettes. As a practical minimum they will introduce in the commons as early as possible a bill enfranchising women holding such house property as would qualify them if they were men, to vote. Promoters of the bill regard it merely as a working compromise, not as an ideal solution. It would add a million new voters to the register.

**Suggests Compromise**  
LONDON, May 27.—Lord Ridley, tariff reform leader, speaking at Wimbledon, advocated a compromise settlement of the constitutional question. There were reforms which would make the Lords a more successful chamber. If, as the Conservatives said, an essential feature of any change which took place must be in the second chamber, they must recognize that Liberals on their side might reasonably ask for a second chamber with which they had some chance of getting a majority.

## ARDUOUS TRIP FOR EARL GREY

His Excellency to Start for the Hudson Bay in Short Time—Likely to Follow Route Surveyed for Railway

OTTAWA, May 27.—Preparations for Earl Grey's trip to Hudson Bay and the far north are progressing, and it is expected that they will be completed in the course of a fortnight.

It was definitely stated this morning that Earl Grey will make his spectacular journey. It is probable that he will go partly over the route which will be taken by the proposed Hudson's Bay railway, but it has been decided, owing to the nature of the country through which the party will travel and the absence of roads, to make a large part of the trip by canoe.

His Excellency has not yet decided exactly what route will be followed. It has been suggested that the party might travel most conveniently to Hudson Bay by the Missinable river route, but in all probability he will get out by the Pas Mission or from the northern end of Lake Winnipeg and follow the water courses on the surveyed route to the bay. Owing to the difficulties which will be encountered on the trip His Excellency's party will be a small one, and he will be accompanied by only one A. D. C. The Royal Northwest Mounted Police will provide a small escort. The boat which will meet His Excellency at Churchill will be fitted out by the Department of Public Works.

## Kaiser Is Criticized.

BERLIN, May 27.—For the first time since the memorable attack by the German press and the Reichstag on the Kaiser in November, 1908, the Kaiser yesterday was assailed by leading members of the Conservative and pan-German newspapers. The Kaiser's pacific leanings in London last week were criticized and he was condemned particularly for talking peace with St. Pinchon, the French minister of foreign affairs.

## Orange Grand Lodge

BRANTFORD, Ont., May 27.—The Grand Orange Lodge of British America concluded its labors here last night by the election of officers and the selection of Winnipeg as the next place of meeting. Dr. Sproule, M.P., was elected grand master of the lodge, and a special committee was appointed to draft legislation to prevent the registration as voters of foreigners not conversant with English. A memorial in the form of a flag staff and flag will be raised over the grave of Alexander Muir, author of "The Maple Leaf."

## Troublesome Millinery

TORONTO, May 27.—The size and shape of new styles of millinery were gravely discussed by eminent counsel and commissioners at a meeting of the Dominion Railway Commission this morning. The express companies claimed that millinery packages of recent years have represented the maximum of size with the minimum of weight and they wanted the present tolls based on weight, plus size, plus value revised in order to cope with the situation. The application of the companies was granted. In effect it allows tolls to cope with the increased size of parcels.

## MINISTERS BACK AT THEIR LABORS

Effort to Be Made to Clear Off Accumulation of Business Before Premier Leaves for His Western Tour

## FEW APPLICATIONS FOR NAVY POSITIONS

Statement in Regard to Iron and Steel Bounties Paid Last Year—Northwest Territories Land Titles

OTTAWA, May 27.—Sir Wilfrid Laurier and Hon. G. P. Graham returned this morning from Toronto, and Hon. William Templeman from New York. A series of cabinet councils will be held in the next few weeks to clear up an accumulation of business before the premier goes west.

Hon. Charles Murphy, who is in Washington inspecting the National Printing Bureau, returns on Sunday.

In spite of the attractive future, which the engineering branch of the naval service opens up for young Canadians, not one application has been received for admission into that branch of the navy, and very few applications have been received from boys to enter the executive branch.

The statement of iron and steel bounties paid by the Federal government in the fiscal year ended March 31st, show a total pig iron production of \$40,244 tons, upon which the bounty amounted to \$573,968. Of this total 547,086 tons were made from Canadian ore, on which a bounty of 70 cents a ton, or \$382,960, was paid, and 193,181 tons from foreign ore, the bounty being \$393,205. The production of steel was 740,390 tons, and the bounty \$696,762. On wire rods \$388,812, upon which the bounty amounted to \$7,802 tons.

Capt. Bernier, of Arctic fame, is receiving recognition from Canada. For the sum of one dollar he has been granted 960 acres in Baffin's Land as reward for his services in the Arctic regions.

John T. Lithgow, latterly an official of the Yukon, has been appointed trade commissioner at Glasgow, succeeding W. C. Fischer, transferred to Berlin. Mr. Lithgow is a native of Halifax, and has been many years in the government service.

The Northwest Territories, as described in the land titles bill, has been created into a land registration district. The place of registry of titles is Ottawa.

Dr. J. Redmond Roy, who for the past two years or so has been associate Dominion archivist with Dr. A. G. Doughty, has been reduced in rank by order of Hon. Sydney Fisher, minister of agriculture. Hereafter he will be described as assistant to the archivist.

## CANADIAN TRADE

Business in West Active and in East Quiet—Undertone is Everywhere Healthy.

NEW YORK, May 27.—Bradstreet's weekly statement of trade tomorrow will say:

In the western part of Canada trade continues active, but in the east business is quiet, though the undertone of things is healthy.

At Montreal wholesale dry goods houses report that retail dealers are purchasing small quantities of goods to sort their stocks. Orders for hardware are light, but the outlook favors better business. Hides and leather are quiet, yet prices are firm. Hay is in heavy demand for English account. Retail trade is good. Collections in city and country are slow.

Toronto reports more seasonable weather and the lighter tones in dry goods are in better request. Orders from the west are prominent features. House furnishings are in good demand, and makers of ready-to-wear apparel are busy. Large outputs of butter and cheese have made for easier prices. Leather is fairly active at higher prices. Grain is easier.

## Alberta Ready-Made Farms

CALGARY, May 27.—Ready-made farms being prepared for British colonists who will arrive next spring are being rapidly developed in the vicinity of Sedgewick. Contractors have been let for drilling 50 wells and the erection of 90 miles of fencing, and already breaking is well under way. Members of the first party of ready made farmers are contracting for some of the work. The government is extending the telephone system through the centre of the colony, and is grading 12 miles of road. Elevator companies are also preparing for a rush, and are building an additional 50,000 bushel elevator.

## Canadian Bank Clearings

NEW YORK, May 27.—Bradstreet's weekly bank clearings: Montreal, \$28,129,000, dec. 1.9 per cent; Winnipeg, \$12,656,000, inc. 20.4 per cent; Ottawa, \$2,767,000, dec. 5.4 per cent; Calgary, \$2,599,000, inc. 6.3 per cent; Hamilton, \$1,598,000, inc. 23.6 per cent; Victoria, \$1,763,000, dec. 7.5 per cent; Edmonton, \$944,000, inc. 12.6 per cent; Toronto, \$21,332,000, dec. 9.5 per cent; Vancouver, \$6,772,000, inc. 42.8 per cent; Quebec, \$1,933,000, dec. 5.6 per cent; Halifax, \$2,139,000, inc. 35.8 per cent; St. John, N. B., \$1,469,000, inc. 34.5 per cent; London, \$978,000, inc. 7.7 per cent; Regina, \$587,000.

## WARSWICK COMPANY GETS CONTRACT

Streets Committee Will Recommend Adoption of City Engineer's Suggestion Relative to Paving by Asphalt

Provided that the guarantees offered by the company are satisfactory to the city engineer, the city will let to the Warswick Paving Company at \$92,002.49, the contract for the paving of Linden avenue, Cook street, Southgate street and St. Charles street. At last night's meeting of the streets, bridges and sewers committee the report of the city engineer on the relative merits of the various tenders received for the work was considered and after considerable discussion adopted. The report is as follows:

Gentlemen:—I have the following to report:

1.—Below is a tabulated statement of the tenders received for pavement, sidewalks, curb and gutter, on four streets in the city. The Warswick Paving Company have the only tender outside of the city engineer's tender that is regular and in accordance with specifications. The tender of the city engineer in accordance with the specifications is \$104,115.10; Warswick Paving Co. is \$109,290.90. The Warswick Paving Company submitted the only regular alternative tender amounting to \$92,002.49, in accordance with the specifications, and although a guarantee clause is not specially mentioned, it is referred to in the alternative tender.

**Alternative Tenders**

The regular specifications call for five inch concrete base, with a one inch binder and a two inch wearing surface of sheet asphalt requiring a ten years guarantee and a fifteen per cent deposit. The contractor is allowed to submit alternative tenders for asphalt pavement, making such specifications as he may deem best, and fully describing such specifications and defining wherein they differ with the regular specifications, giving a price with a ten year guarantee and a fifteen per cent, holdback, and also a price without a guarantee of any kind.

The Pacific Paving Co. and the Barber Asphalt Co. submitted alternative bids with unit prices for an asphalt pavement with a four inch base, one inch binder and two inch wearing surface, offering a five year bond guarantee. I have worked out the amounts using the city engineer's quantities with the result that the Pacific Paving Co.'s figure for the entire works is \$111,725.25, and the Barber Asphalt Co., \$116,340.60.

I would recommend that the alternative tender of the Warswick Paving company of \$92,002.49 with a ten-year guarantee and a 15 per cent deposit, be accepted. I know that this class of pavement was laid in Calgary two years ago, where I believe it is giving entire satisfaction.

2.—There are five streets on which sidewalks, curb and gutter, have been passed and reported on and for which specifications, profiles and plans are ready, at an estimated cost of \$16,900. There are passed and ready for work by day labor fifteen streets, at an estimated cost of \$68,300. These may be proceeded with as fast as we can get men to carry out the work.

The various tenders were tabulated as follows:

Street	City Engr.	Pacific Engr. alternative	Barber Asphalt alternative	A. Pike.	Warswick Paving Co. alternative	Warswick Paving Co.
Linden	\$45,475.00	\$22,938.75	\$54,957.10	.....	\$50,888.87	\$12,566.72
Cook	34,212.00	36,751.25	38,731.00	.....	35,863.06	30,850.97
Southgate	7,330.60	6,629.50	6,944.50	.....	6,872.40	5,681.20
St. Charles	16,997.50	15,406.75	15,708.60	.....	20,558.65	15,716.57
	\$104,115.10	\$111,725.25	\$116,340.60		\$20,558.65	\$109,290.90
						\$92,002.49

**Owners Want It**

A petition signed by ninety per cent. of the property owners on Linden avenue asking that the Warswick Paving company's tender be accepted was read. The petition urged the advisability of having the work done by contract.

Mayor Morley pointed out that Assistant City Engineer Bryson had stated that as part of Linden avenue was of a bumpy nature pavement of the Warswick type might prove unsatisfactory, but City Engineer Smith replied that he did not look for any such trouble, and Alderman Mable believed the company's guarantee would be sufficient to provide for possible future faults.

Relative to that part of the report dealing with sidewalk work, Mayor Morley suggested that it would be wise to put more men to work and rush along such jobs as are under way. It did not appear to him that any special effort is being made to complete the great arrears of work. Alderman Mable wanted more men put on road work and not so much attention paid to sidewalk work.

Then Alderman Bannerman warmly objected to the fact that though he had tried to ascertain whether the contract with the B. C. Sand and Gravel company for the city's supply of gravel had been signed, no one of the officials could tell him. It was gross carelessness on someone's part. There were officials being paid good salaries by the city, and these same officials are yearly coming back to the council for increases and yet they did not seem to know what is doing or what they are expected to do.

**Should be Signed**

When City Engineer Smith stated that the company is supplying material at present, Alderman Bannerman admitted that such might be the case, but unless the contract were signed up the company might not be willing to continue to supply material when the demand from the contractors became keener, and the city could not hold the company without a signed contract.

Alderman Sargison was also in a critical mood, declaring that it seemed impossible to get things done. What the council evidently needs is an executive committee which will carry out its instructions and see that matters are properly and promptly done.

Mayor Morley believed he was supposed to be the executive head of the council, and it is his duty to sign contracts, but it is the work of the officials to carry out preliminary steps and then submit matters to him in the final stage. But he would defy any member of the council to carry on "my end of the game" as he has had to do for the

past three months and not throw up the whole job.

The City Engineer's recommendations relative to sidewalk work was also adopted and tenders will be called for, to be in by June 13.

### King George's Birthday

OTTAWA, May 27.—The cabinet tomorrow will take up the question of issuing an order-in-council declaring that Friday, June 3rd, King George's birthday, shall not be officially recognized as a public holiday. Under the bill of exchange act, the King's birthday is ordained a public holiday.

### Against Miller Act

TORONTO, May 27.—Morality department officials announced this morning that the Globe, Mail and Empire, and World would be summoned tomorrow for printing racing form charts. Inspector Kennedy contends that this is contrary to the Miller Act.

### South Africa's Natal Day

REGINA, May 27.—The department of education has issued orders for the flying of flags on all schools of the province on May 31st, the first natal day of United South Africa. Instructions have been sent to various trustees in the province and it is suggested that in addition to flag-flying schools have lectures on appropriate subjects on that day.

### IRISH FACTION FIGHT

Followers of John Redmond and Wm. O'Brien Clash at Meeting—Police Use Guns.

NEWMARKET, Ireland, May 27.—One man is dead, a dozen persons were wounded and several hundred slightly injured today following a clash between the followers of William O'Brien leader of the United Irish League, and John Redmond, head of the Nationalists faction.

The fight began last night, when a Nationalist attempted to speak here Newmarket is one of O'Brien's strongholds and a mob of Irish Leaguers gathered to break up the meeting. The attempt by speakers to address a meeting led to a battle of fists which soon became a riot. The affray was the most violent of the present campaign. Several houses were wrecked by the infuriated combatants and finally the police were called.

After several vain attempts with clubs to disperse the rioters the Riot Act was read and the police opened fire. One man was killed and many were wounded.

Redmond is blamed today for planning a speaking tour among O'Brien's constituents. It is believed that if he does not recall his speakers, there will be repetitions of last night's encounter. Further trouble is expected here and the authorities are taking precautions to prevent another clash.

### DR. KOCH DEAD

Celebrated Bacteriologist and Medical Expert Falls Victim to Disease of the Heart.

BADEN-BADEN, May 27.—Prof. Robert Koch, the famous bacteriologist, died here this afternoon from a disease of the heart. He was born at Klausthal, Hanover, on December 11, 1843.

Professor Koch's discoveries placed him at the head of bacteriologists in point of fame. His first notable discovery was that of the tubercle bacillus, which he was the first to isolate through having found a method of coloring microscopic preparations. He then was able to produce tuberculosis in animals by inoculation.

Next, while heading the German cholera commission, which visited Egypt and India in 1883, discovered the "comma" bacillus of cholera. In 1890 he found the phthisis bacillus

and compounded the lymph which was expected to prove its sure remedy. Much controversy was waged over the question of the efficacy of this cure. Dr. Koch was also the first to recognize the fact that bubonic plague was spread by rats. Many minor discoveries on medical and scientific lines are set down to his credit.

### Hudson's Bay Director

LONDON, May 27.—It is now stated that the new director of the Hudson's Bay Company will be a member of the firm of Lazard Freres.

### Canada's Preference

LONDON, May 27.—With reference to Canadian commercial negotiations, the Mail says: "The Dominion's ideal is for still closer commercial union with the Empire, but as years pass without response from the British and the hopes diminish, and the ideal recedes. It would be unwise for the British to delude themselves regarding the permanency of present Canadian sentiment." The Standard says: "The fact is that Canada, having waited over thirteen years upon the promise of this country, can afford to wait no longer." The Telegraph says that in the human economic force Canada is already more important than any country in Europe outside of first class powers. There is something inspiring to all countries in the manner in which Canada faces her tasks.

### Wheat Market Panicky

CHICAGO, May 27.—The smashing of prices the driving of smaller brokers to the expense and the defeat of Jim Patten by his inveterate trade enemy, J. Ogden Armour, caused the wheat market to open today in a condition bordering on panic. Floor selling orders tumbling in from all quarters of the country forced the May options down 3-4 to 11-4 cents under yesterday's close. Lower foreign cables, good wheat weather and heavy stocks in transit added to the confusion of the already demoralized market. Brokers were on tip toe during the morning session, fearing that the operations of the big men of the market would force smaller operators to the wall, rip open the wheat market and jump to the market at lower than purchase prices. The operations of the Armour agents were watched closely, and their trading largely determined the fluctuations of the market.

## INCIDENTS OF MANY WARS

Frederic Villiers, Renowned British War Correspondent Gives Interesting Illustrated Talk

Punctuated by constant outbursts of applause, Frederic Villiers, dean of Britain's famous war correspondents, than whom there is no living man who has seen so much of war in every corner of the world, gave a most interesting talk, illustrated by photographs and sketches made by him on the battlefield, of many campaigns he has witnessed, in Broad street hall, in aid of the summer camp for Boy Scouts. The Governor, Hon. T. W. Paterson, occupied the chair. The hall was thronged, and many failed to gain entrance. Owing to the popularity of the lecture, arrangements are being made for a second illustrated talk on the wars viewed by Mr. Villiers, and it is probable that he will give Victorians another opportunity of hearing him within a few days.

In his opening remarks, the lecturer pointed out that thirty years ago, when he began his career as a war correspondent, the only medium of portraying pictures of the battlefield was the sketch book and even nowadays the use of any but a very small camera is impossible at the front. The first picture thrown upon the screen dealt with the Russian-Turkish war of 1877, and showed the awful mortality among the Turkish prisoners as they were driven through the country by their captors.

### On the Condor

The audience was treated to a most realistic description of the attack on Fort Marlborough by Lord Charles Bessford, in his little ship, the Condor. The audacious way in which Lord Charles ran his little ship up to within 1,200 yards of the enemy's big guns, thus bringing them into such a position that only their masts could be touched by their fire, was brought out with great vividness.

The lecturer then proceeded to tell of the decisive action at Tel-el-Kebir, when the British forces were under the command of Sir Garnet Wolseley, and were hurrying to the relief of General Gordon, who was besieged in Khartoum. Photographs were shown of the means employed in bringing up

(Continued on Page 7.)

### Royal Declaration

LONDON, May 27.—According to the Tablet, the royal declaration is to go, the only thing in doubt being whether it will simply be abolished or be modified so as to be inoffensive.

### Insurgents are Beaten

BLUEFIELDS, Nic., May 27.—The government forces under cover of the fire of the gunboat San Jacinto, today routed the insurgents and captured Bluefields Bluff. This loss to the Estrada forces probably ends the revolution.

### Compensation for Injuries

NELSON, May 27.—Judgment was given yesterday by Judge Forin in the case of D. F. Cummings vs. The Nelson Iron Works, Limited, in favor of the plaintiff for \$200 and costs. The plaintiff was an apprentice in the machine department of the works, and had the top of his index finger cut off and subsequently a portion of his finger amputated. He sued under the Workmen's Compensation Act, and the case presented an interesting feature in that he was still employed at the former rate of pay. It was therefore argued by the counsel for the defendant, H. C. Hall, that he had not suffered loss. Counsel for the plaintiff, Mr. R. S. Lemle, argued that the loss had been suffered because although the earnings might not have been reduced the capacity to earn had been affected, and a judgment of Judge Clement was quoted in support.

### ARIEL NAVIGATION

PARIS, May 26.—In connection with the recent sensational cross-country flights it has been said that railway lines are the only safe guide of aviators. M. Paulhan, in an interview, has stated that this is not the case. He said that he had followed the railway line in his flight from London to Manchester, but, on the other hand he had no railway to guide him on his flight from Orleans to Nogent-sur-Seine. He added: "I find that a map on which one's directions has been carefully traced is just as good. To find one's bearings in an aeroplane is easy when one is accustomed. I had never, for instance made the journey from Orleans to Nogent. I had no railway line to guide me and I simply followed the direction which I had chosen leaving the line of the Forest of Fontainebleau at my left and going in a straight line to Montreuil. When going at the rate of forty or fifty miles an hour I look more where I am going than to where I am. I take a landmark somewhere on the map which is being unrolled, such as the crossing of a road, a stream, or a town and I steer straight towards it. It is best, of course, to be at a good height."

So confident, in fact, has Paulhan become in the course of his flights that he now takes photographs on his way and he already possesses a number of very interesting ones, some of which were taken at a height of 300 ft. or 1,000 ft. He simply chooses a pretty landscape below and works his camera with his left hand. He has already studied a good bit of the country, and has accustomed himself to travel through the air with perfect confidence. While flying at a good height he always has in view a big field or a clearing in a forest where he might land safely in case there should be a sudden accident to his motor, and he should be obliged to come down.

### Farm Land Held High.

NELSON, May 27.—R. C. Bevan of the Griffin ranch, Creston has refused a cash offer by Vancouver parties of \$15,000 for his improved twenty acres at Creston.

Telephone your grocer for Comox Butter.

**Dominion Trust Co., Ltd.**  
1001 Langley Street, Victoria, B.C.

## FRENCH CAPITAL INVESTING HERE

Over a Million Dollars Worth of Victoria and Vancouver Property Purchased During Past Few Months

During the last few months over a million dollars of French capital have been invested in real estate in Victoria and Vancouver. The investments have been carried out by Mr. A. O. P. Francis, who represents extensive French interests in the province. Questioned about a dispatch which appeared a few days ago to the effect that French capital to the amount of a million sterling was seeking investment in Canada, Mr. Francis stated, that beyond the dispatch, he had heard nothing of the matter, although he regarded it as highly probable, as the attention of French capitalists was turning towards this country, and especially towards British Columbia.

The ever increasing values of property both here and in Vancouver has been responsible for the trend of French capital to the coast cities. The fact of such a heavy outside investment is indicative of a belief in one of the chief money markets of the world in the substantiality of the progress of the Canadian Pacific coast.

## THE ITINERARY OF SITE COMMISSION

Spent Yesterday Morning Upon Routine Business—The Afternoon in Visiting Suburbs With Committee

The members of the British Columbia University Site Selection Commission were busily engaged all yesterday morning at the Maple Committee Room of the Provincial Legislative Assembly, which has been placed at their disposal as office headquarters, arranging the multitudinous details of procedure in connection with their forthcoming investigations which are fraught with so much importance to the future of higher education in Western Canada. As has been expected, and is in fact provided for by the act which authorizes the Commission, many interesting and beautiful portions of the Province will be visited in the course of the eventual tour upon which the Commissioners will leave early in the coming week; while at a number of the principal population centres, formal sittings will be held—the Commission being vested with powers analogous to those conferred upon upon Commissions generally under the Public Inquiries Act—at which the public-spirited residents of various interested sections will be afforded ample opportunity to advance and to support with evidence their claims as to rival locations which may be suggested as offering exceptional advantages as the site for the long-hoped-for University.

### The Itinerary

The itinerary, insofar as settled yesterday morning, is as follows:  
Victoria—May 30, 10.30 a.m.  
Nanaimo—May 31, 3.00 p.m.  
Alberni—June 1.  
Vancouver—June 2, 3, 4 and 5, 3.00 p.m.  
North Vancouver—June 3, 11.00 a.m.  
New Westminster—June 6 and 7, 3.00 p.m.  
Chilliwack—June 8, 2.00 p.m.  
Kamloops—June 10, 10.30 a.m.  
Vernon—June 11, 2.00 p.m.  
Nelson—June 16, 10.30 a.m.  
Fernie (visited)—June 18.  
Revelstoke—June 20.

### Visited the Suburbs

The University Commissioners were taken in hand yesterday afternoon by some members of the citizens' committee and given a motor ride through part of the suburbs. It was intended to extend the ride to Sidney, but a mishap to one of the motors occasioned so much delay that this proved impossible. The party visited Oak, Cadboro and Cordova bays and Gordon Head. They stopped at the University School where they were met by Warden Bolton and the other masters and were shown through the buildings. They also had an opportunity of seeing the school cadet corps at drill. The ladies presented a very soldierly appearance. This afternoon a visit will be paid to Esquimalt and vicinity.

## MAKING WAR ON TROUBLESOME PEST

City Inaugurates Active Campaign Against the Destructive Caterpillar—New Mixture is Destructive

The fate of the omnipresent and destructive caterpillar is sealed. The onslaught upon the pest has begun and a squad of ten civic employees armed with the very latest in the way of offensive weapons of this particular work has been hard at it putting the enemy to flight. The city is doing its share, and calls upon owners of property on which the pest has made its appearance to join in the good work. There is no reward offered by the corporation, but owners have some incentive to prosecute the good work. Unless they do their share court proceedings will be inaugurated, and a fine ranging from \$10 to \$50 may be imposed. Only civic

property is being attended to by the city. The private holdings must be looked after by owners or agents.

The latest means employed for this work of pest extermination is spraying with a mixture of which coal tar and sulphur are the chief ingredients. A small spray containing about a pint of the mixture will do a large amount of work, and one spray is sufficient to destroy about 300 nests of the larvae. While the work was in progress yesterday close examination of the effect of the spray was made with the result that in every case the caterpillars were dead within one minute of being sprayed. The mixture used is stated to be harmless so far as foliage is concerned. For those cases where the pest is lodged high up in the trees, coal oil torches on long poles are used, the nests being destroyed by the flames. By the middle of next week the city will have completed its work, and owners are expected to undertake their part of the task at once.

Two city workmen have been stationed in each ward, and a thorough inspection and spraying will be done. The territory in Spring Ridge in the neighborhood of the George Jay school, and that along Dallas Road have been found to be the most infected with the caterpillars. Sections of the city which last year were most infected appear to be practically clear of the pest this year.

### An Ottawa Blaze

OTTAWA, May 27—A fire in Joseph DesRivieres' saw and planing mills made a spectacular sight in lower town shortly after midnight, and kept the fire department busy until about 2 a.m. The fire spread through the block among the numerous small wooden dwellings, and three were consumed. The rear of dwellings on King Edward avenue, Cumberland street and St. Patrick street, which overlooked the mill, were damaged by the fire. The loss is estimated at \$20,000.

**Tragedy of Railway Building**  
LONDON, May 27—Mrs. Charles Garnett, speaking at a meeting of the Navy Mission Society, said: It is estimated that every mile of railway in the British Isles costs a navy's limb, and every tunnel from one to thirty lives. It is worse in Canada, where men die in great numbers in summer and are buried without anybody knowing it. More fatal than fevers are the effects of the use of dynamite. In England the fatal effects are bad enough, but the fatalities are chiefly caused by the use of German detonators, which do not go off as soon as the English detonators. It is impossible to judge the time when German detonators will explode, but this is not the case with English detonators. In Canada the thawing of dynamite before it is used produces appalling results. According to one estimate the toll of railways now being constructed in Canada in order that civilization may spread is two lives per mile.

## OFFICIALS MEET WITH OPPOSITION

Enforcement of Health Regulations Sometimes Requires More Than Mere Show of Authority

To enforce the health regulations is not always an easy matter, and to impress upon the minds of offenders against the city laws, especially when the delinquents are Orientals, is sometimes an arduous and exciting work. For years it has been the practice of Chinese and Japanese fishermen who hawk fish from door to door in the city, to hold their catch alive in the inner harbor in a species of crate, the fish being taken out as required. Against this practice the health officials have no particular objection, but as the Oriental fishermen seem to show a decided preference for locations immediately in the vicinity of sewers at which to store their piscine property the officials have been called upon repeatedly to break up the crates and order the discontinuance of the practice.

Last week a report was made to the health inspector that a large quantity of fish were being kept immediately off the mouth of a sewer emptying into the harbor near the garbage wharf. Armed with axes Health Inspector Lancaster and his assistant descended upon the offending fish trap, and were met with unexpected opposition. The Chinese owners objected persistently and volubly against the intrusion of the officials, and as the work of destruction went forward frequent attempts were made to push the sanitary inspector and his helper into the water. Finally the aid of a number of white men nearby was requisitioned, and the Orientals sullenly withdrew. The fish crate was demolished, and the fish allowed to seek their liberty.

## FELL DOWN HATCH ON STEAMER KEEMUN

Chinese Steamer Passenger Took Dive Into Hold of Big Freighter at Vancouver Yesterday.

VANCOUVER, May 27—A Chinese steamer passenger on the Blue Funnel liner Keemun, now discharging at the Evans-Coleman dock, fell from the 'tween decks into the lower hold this morning and was seriously injured. The man was about to leave the steamer today, and had been waiting for his father to call for him. He would not listen to the warnings of longshoremen and sailors, and kept looking down into No. 1 hold, when he suddenly overbalanced and fell a distance of 35 feet, landing on some iron pipes. The fall rendered him unconscious for a few minutes, but he came to his senses while being hoisted to the deck in a cargo net and showed no signs of recovery. An examination showed that he was seriously injured internally, and he was removed to the hospital.

## ROBINHOOD FLOUR IS DIFFERENT

### This is the Wonderful New Flour

that has made such a sensation throughout Western Canada.

Made of highest grade Saskatchewan wheat, in the newest, best-equipped, largest mill on the prairies.

Made with the determination to give users better flour-value, greater certainty of baking-success, fuller satisfaction with the final result, whether with biscuits, cake or bread.

Housewives throughout all the West admit that Robin Hood Flour gives all this. Therefore, Madam, it is the flour for you.

This flour cannot be described in an advertisement. We use this paper merely to give the introduction—to say:

"Let us make you acquainted with Robin Hood Flour."

It is the guaranteed flour. If you are not satisfied with it after two fair trials, ask your grocer for your money back. He will give it to you.

Add more water than usual when using Robin Hood Flour. Made of such hard, dry wheat, it absorbs more moisture—producing a larger, whiter loaf.

The difference between Robin Hood Flour and other flours you have to find out for yourself. That there is a difference every woman who now uses Robin Hood admits.

HAMILTON WINNIPEG

news received at the Canadian North-

ern offices, Wm. Mackenzie, president

of the system, was one of the passengers

who sailed from Bristol on the company's

new steamer Royal George. Wm. Mackenzie

is said to be bringing with him drafts representing forty-five

million dollars of British capital which he has

secured for investment in Canadian Northern enterprises. Among these

enterprises is said to be that of linking up the eastern and western portions of the

Canadian Northern Railway system by means of a line through the country north of Lake Superior and comple-

tion of the company's lines between

Montreal and Toronto.

TORONTO, May 27.—"There is nothing

in the story that we have received an offer of \$50,000,000 for the common

stock and control of the Canadian Northern Railway. I have no knowl-

edge of any such offer having been made, but even if it had been, we would

not consider it or any other offer for control of the Canadian Northern system."

This statement dealing with the story emanating from Montreal to the effect that an offer of \$50,000,000 had been

made by British capitalists for the stock of the Canadian Northern railway

was made by D. D. Mann, vice-president of the railway, today.

Your tongue is coated.

Your breath is foul.

Headaches come and go.

These symptoms show that your stomach is the trouble. To remove

the cause is the first thing, and Chamberlain's Stomach and Liver

Tablets will do that. Easy to take and most effective. Sold by all drug-

gists.

### THE COWICHAN PROJECT

The operations of the American Securities company at Cowichan are likely to be a very important industrial factor in the immediate future. A very large sum of money will have to be expended to build the railway and install the contemplated plant, and when these enterprises are in operation, there will be a large pay roll. There will be a new town somewhere between Victoria and Duncan, and it will be reached not only by railway and steamers, but by the Mill Bay road, a highway that is thus likely to assume an importance not contemplated at the time its construction was urged upon the government. By this road the new town will be within a short motor run of Victoria, and it is quite within the range of possibility that there may be connection between the two cities by electric railway. We have already spoken of the feasibility of making a quick connection by way of a ferry steamer from an electric railway on the Saanich Peninsula.

We dwell upon this subject because we wish to impress its importance fully upon the minds of the people of Victoria. There will be connection between the terminal of the Cowichan Lake railway and Vancouver by ferry. At least that seems altogether probable. It is therefore the interest of Victoria to establish connections with that railway and its terminus by every way possible. Again we remind citizens that it is the near-by trade that counts most. A possible customer at, say, Mill Bay, is worth more to the business men of Victoria than a possible customer at, say, Stewart. The construction of this railway and that of the Canadian Northern to Barkley Sound will develop important industrial centres within a short radius of this city. We do not know that there is anything that can be done in this connection just now, but the facts of the case ought to be borne in mind and carefully considered by every person interested in promoting the welfare of Victoria.

### BILL, DAN AND DICK.

We have a more or less dim recollection of reading in a Victoria paper last year some observations about the Canadian Northern being generally of "no good proposition," or words to that effect, also some remarks about the general doubt that ought to be indulged in whenever Mr. William Mackenzie or Mr. Donald D. Mann made any statements on the subject of railway construction. Now our contemporary manages to say a number of very complimentary things about the gentlemen, whom it calls Bill and Dan, and in regard to the Canadian Northern railway it quotes the following from the Ottawa Free Press without a word of dissent:

The C. N. R. is indeed a great railroad corporation. It is paying bond interest on 62 millions, extending itself with wonderful rapidity month by month and year by year, and after doing this it has a few hundred thousand left over every year out of the net earnings for dividends on the 30 millions of capital stock. All this has been accomplished and is being accomplished without the aid of tremendous government grants and loans. The Dominion Government has but guaranteed 25 millions of C. N. R. bonds, and that is a bagatelle when one reflects what the Government has done for the C. P. R. and is doing for the G. T. P.

A list of Canada's great men would be woefully incomplete without the names of Mackenzie and Mann. We suggest to our contemporary that, on the principle that an honest confession is good for the soul, it might follow up its panegyric upon Bill and Dan with a complimentary reference to Dick, and admit that the latter did a good thing for British Columbia and Victoria when he enlisted the energies of the famous railway twins in the development of this province including Vancouver Island.

### CANADA AND BRITAIN

Some of the British newspapers seem to be under the impression that Canada has been waiting for years to receive a preference in the markets of the United Kingdom, and because it has not been accorded is looking elsewhere for trade. In this they are quite wrong. The trade policy of the Dominion has been dictated by the Laurier ministry, and when the policy of Canada is spoken of, what must be understood is the policy of that ministry. There is no sense in associating the ideas of Conservatives with those of Liberals and calling the mixture Canadian policy. To say that the Laurier ministry has entered into negotiations with France and made certain concessions to Germany and the United States because Britain would not grant a preference, is to misrepresent the facts. Sir Wilfrid Laurier and Mr. Fielding have stated over and over again that the

preference was extended to British goods without any expectation at all of any preference in return. Hence, to say that the treaty with France, for example, was made because a preference was not granted by the United Kingdom is absurd. Nor has the failure of Britain to grant a preference anything whatever to do with the prospective reciprocity negotiations with the United States. It is to be observed that the proposal for negotiations did not originate with Canada, but with the United States, and that they were inspired not by anything that Canada had done for the United Kingdom or the United Kingdom had failed to do with Canada, but simply, because it has at last dawned upon the people of the United States that the trade of Canada is worth cultivating. We are very much inclined to think that, if there had been a mutual preference between this country and the British Isles, the United States would have been even more eager than it now is to arrive at a trade arrangement with us.

We do not say that there are not a number of people in Canada who think that Britain ought to give Canada certain preferential advantages as compared with foreign nations. A very great many people think so, but whether they are right or wrong their views are not the views of Canada as a political entity, and they do not find expression in the policy of the Dominion Government. The absurdity of the contention that Canada may be contemplating reciprocity with the United States because the United Kingdom does not give a preference to Canadian exports ought to be obvious to even the dogmatic writers on the London papers. Our principal exports to the United Kingdom are timber, wheat and other food stuffs. Canada is not seeking an entrance into the United States market for these articles. The United States is beginning to realize that it needs these products of Canada. Of course, Canadian producers would like a preference in the markets of the United Kingdom. Equally of course a system of mutual preference, whereby trade between the British Isles and the Dominion would be built up, would be an exceedingly excellent thing for Canada. But this would have no bearing whatever upon reciprocity with the United States, and we do not believe it would have any influence whatever in preventing the present ministry from endeavoring to negotiate favorable trade agreements with other nations. Once more we remind readers that when the policy of Canada is talked of, the policy of those who are temporarily administering the government of Canada must be understood, and there is not the slightest warrant for supposing that the fiscal policy of the Laurier government has been influenced in even an infinitesimal degree by the idea that Canada has waited a long time for a preference in the British market. This consideration might influence some people, although we do not say that it would, but it is certainly a mistake to say that it affects the policy of the present government.

We make these observations in the hope that they may come under the notice of some of those persons in the United Kingdom who talk about the intentions of Canada. As a general proposition the Conservatives in Canada would like to see the United Kingdom adopt protection and give Canada and the other over-seas Dominions a preference over foreign countries. As a general proposition the Liberals hope that free trade will prevail in the United Kingdom, and hence they do not consider the question of a preference at all. It so happens that the Liberals are in power, and their ideas govern the fiscal policy of the country. The London papers take the actual policy of the Liberals and the political predilections of the Conservatives, and out of the two make up what they call the views of the Canadian people. The Liberals granted the United Kingdom a preference; the Conservatives would like to have the United Kingdom grant Canada a preference. But this desire of the Conservatives does not influence the policy of the Liberals, and it is the policy of the Liberals, which, for the time being, at least, is the policy of Canada, and must be taken as expressive of the views of the Canadian people, whether or not it does so in point of fact.

Seemingly the comet that comes often to the sun gets broken at last.

Our evening contemporary so completely misrepresents what the Colonist said in regard to the respective rights of pedestrians and the drivers of vehicles of every description, including motor cars, that we shall not take the trouble to set it right.

We direct attention to the necessity of renewing free miners' certificates before the expiration of the present month. The issue of the certificates will be greatly facilitated if the holders of outstanding certificates will not postpone renewals until the last day.

Mrs. Charles Garnett says that scores of navvies die from fever every year on Canadian railway construction "without anybody knowing it." How, then, did Mrs. Garnett get her information? She says that the death toll on railway construction in Canada is two to each mile of road. We do not believe it.

Mr. Joseph Martin is resting in fine style. He has now a fight with the liquor interests on his hands. However else one may regard the ex-

British Columbia Premier and present member for St. Pancras, it will not be denied that he knows how to say what he thinks and has the trick of saying it regardless of consequences.

Surely the Montreal Herald is incorrect when it says that the coronation oath was written at a time "when the Kings of England were content to regard themselves as the vassals of France." At what stage in English history were the Kings content to so look upon themselves?

Earl Grey is making good use of his time. He now proposes to go to Hudson Bay and thence to Quebec by steamer. The noble earl, when he takes leave of Canada, will know more about the country than any of the people whom he will leave behind. He will be a veritable library of information, and fortunately will not be copyrighted. He is an ideal representative of the Crown.

At the present rate of progress suburban Victoria in five years will be unrecognizable by persons who will only remember it as it is now. For a long time things stood still or very nearly so, but they are going ahead now at a pace that ought to satisfy the most optimistic. The progress is of a kind that expands in ever widening circles.

An ex-governor of the State of Washington repudiates the idea of conserving the natural resources of the country. He takes the same stand as the Irish member of Parliament, who said: "The honorable member says we ought to do something for posterity. I would like to ask him, Mr. Speaker, what posterity has ever done for us."

On May 31st will occur the natal day of United South Africa. We have already mentioned this fact, and asked that it shall be appropriately observed by the flying of flags, and this notice is in part intended to remind readers of the day. It is also intended to suggest to the teachers in the public schools that they should take occasion on that day to direct the attention of pupils especially to South Africa, but incidentally to the British Empire as a whole.

Commander Vivian of H. M. S. Shearwater does not take very much stock in that round-the-world cruise of a fleet of 200 British warships. We pointed out at the time the story was published that it was exceedingly improbable. To send a fleet of 200 ships around the world would be a task of vast magnitude. It would call for unparalleled preparations, and the cost would be enormous. It would be at least equal to the cost of several first-class battleships.

There seems to be a disposition in the United Kingdom to consider very seriously the question of woman suffrage. Before the suffragettes began their hysterical campaign, a number of prominent British public men expressed themselves in favor of the principle of extending the franchise to women. Mr. Asquith was one of these. We do not know that any one ever went so far as to formulate a policy in detail, but the question was generally conceded to be one that was about to enter the domain of practical politics. Then the suffragettes began their antics, and as a matter of course no self-respecting public man would take up their cause.

From all indications it seems probable that the coronation oath will be altered. The Orange bodies object to any alteration, but they find it difficult to show that the present phraseology has any binding force. If the British Parliament were about to devise a coronation oath for the first time, it would never think of employing the language, which seemed fitting generations ago. The King can swear to uphold the Protestant religion and abjure any faith in the peculiar tenets of the Roman Catholics without at the same time using language which is objectionable to every Roman Catholic citizen of the Empire.

It is stated that one of the first things to be done when the British Parliament reassembles will be to pass a statute providing for a regency. The Heir Apparent is only sixteen years old, and he would not be entitled to act as king until he reaches his eighteenth birthday. Hence in the event of the death of the reigning king, before the Heir Apparent reaches that age, a regent would be necessary. Report says that the person to be named in the proposed statute will be the Duke of Connaught. It is said that some of the active suffragettes are already objecting that Queen Mary should be named. It is suggested that the possibility of his nomination to such a post may prevent the Duke from accepting the Governor-Generalship.

The Colonist has a kindly greeting from the Prince Rupert Evening Empire conveyed by wireless and suggested by the establishment of this new tie between the two cities. We take pleasure in returning the greeting, and at the same time we express the confident hope that there will be another tie between the two cities before more than a few years have passed. We look for the construction of a railway to the north end of Vancouver Island as one of the things that will be realized before most people anticipate, and then with fast trains and fast steamers a passenger and mail service can be maintained between the two cities so that not more than a day will be occupied in the journey.

## STYLISH PARLOR PIECES

For Your Parlor Are Ready for You Here

We do not know of any other Western Store so well fitted to supply your wants in parlor furniture.

First of all our stock of parlor furniture is broad—howing a pleasing assortment of stylish pieces, at prices to suit every restriction in the matter of price. These pieces are all of excellent design and best quality.

If you should not find anything in this stock to suit you or your home, we are splendidly equipped to make something to your order. We have a big stock of coverings and a large staff of experienced men ready to execute your demands. It matters not what style of frame or covering you may desire, you'll find us prepared to assist you. Come here for your parlor furniture.

Perhaps you have some old furniture that needs re-covering—then let us do the work for you, in the Weiler Way.

## Go-Carts

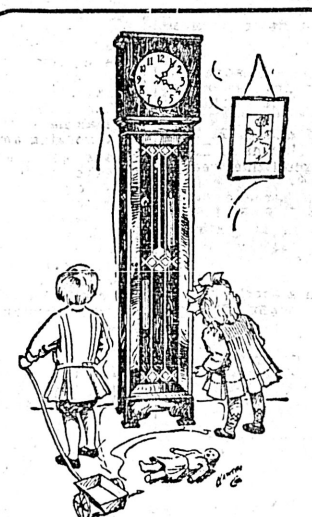

Priced from \$5

A bigger go-cart and baby carriage business than in previous seasons is a pleasing appreciation of our efforts to offer the best styles and best values.

As for many years past we handle the famous Whitney Go-Carts and Baby Carriages. This year's designs are much above the average and have certainly proved popular with Victoria mothers.

If you are interested you cannot do better than choose from this stock of ours. These Whitney carts have many special patented features not found in others; materials and workmanship the best; styles one year ahead of other makes and values the best.

Come in and see the great range with prices starting at \$5.00.

## "Grandfathers" Clocks

A "grandfather's" clock would make a splendid wedding gift for some June Bride.

We have just received some very stylish clocks in mahogany, golden oak and in Mission Early English oak. There's a big choice of styles and an interesting price range.

These clocks are reliable timekeepers—made for service as well as appearance.

Come in and see these.

Prices range from—  
**\$50 to \$100**

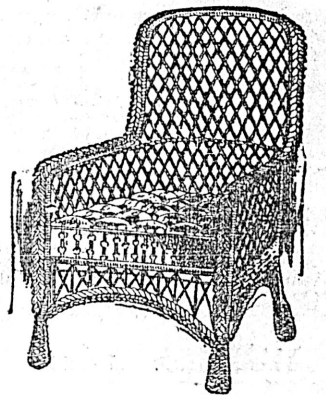

## Inviting Summer Furniture

Our reed, rattan and sea grass furniture, strongly appeals to the taste of all who desire something "classy" and decorative, and something delightfully cool and inviting for Summer use on verandah or lawn.

This furniture is gracefully and substantially designed—built for just such use, and it also enjoys the distinction of completing the decorative arrangements in many high-class homes. It's a furniture style that's eminently suited for either outdoor or interior use.

We have an excellent assortment ready for this season, and we invite you to come in and see these stylish pieces—

Arm Chairs, from ..... \$4.50  
Rockers from ..... \$4.50

## A Superior Showing of Carpets

And Rugs Is Offered You on Our Second Floor—See These

A SUPERIOR showing of carpets and a showing of superior carpets ready for you here on our second floor. Never a more interesting collection. Patterns are above the average and the colorings dainty and pleasing. Then there's such a splendid choice—broad enough to satisfy any requirement of taste or purpose.

In squares and rugs we offer an unequalled collection. Hundreds are on display and shown so that the whole lot may be inspected in quick order. No other Western establishment attempts such a showing of rugs and squares. You'll find a rug or square to fit any room, and you'll find a pattern and color combination to suit you.

Nothing but reliable quality offered—the very best made. We guarantee you carpet satisfaction if you choose from our stocks—and the prices are right.

## LETTERS TO EDITOR

### The Tent Caterpillar

Sir:—After trying fire and other things which have damaged my fruit trees before killing all the caterpillars, I find the best caterpillar destroyer is Skid Oil, and costs about 15c per gallon. Skid oil does not injure the trees, and caterpillars having only one drop of this oil will die in less than 30 seconds. I believe coal oil, machinery oil or any other kind of oil will do just as well only it is more costly. I recommend skid oil as I have made my experience with it. J. DUCREST.

Every family and especially those who reside in the country should be provided at all times with a bottle of Chamberlain's Liniment. There is no telling when it may be wanted in case of an accident or emergency. It is most excellent in all cases of rheumatism, sprains and bruises. Sold by all druggists.

## WE TAKE THE BURDEN OF THINKING ABOUT YOUR SUMMER SUIT

This is where Fit-Reform Serves a man so helpfully.

We have seen to it that styles are correct—that patterns are rich and elegant—that sizes are here to suit your figure, as soon as the effects please your eye.

All the hurried man has to do is to step into the wardrobe—and into his own right garments.

As an example of how easily and inexpensively one may dress, see the elegant Tweed, Worsted and Serge Suits we are showing at \$18.

You will probably think they are \$25 until you learn the price.

ALLEN & CO.

**FIT-REFORM WARDROBE**

1201 GOVERNMENT STREET, VICTORIA.

## SOCIAL AND PERSONAL

Mr. John Donahoe, of Kyuquot, is visiting the Capital.

Miss Angus is spending a week or two with friends at Vancouver.

Mr. H. S. Vaughan, of Vancouver, is a visitor in Victoria.

Mrs. Cooper is a guest of Mrs. J. H. Magill, Vancouver.

Mr. G. Y. Simpson has returned from a holiday visit to the Mainland.

Mr. L. C. Rattray has been spending the week at Vancouver.

Mr. and Mrs. E. V. Bodwell are paying a visit to Mainland friends.

Mr. and Mrs. William McNeill are over from Vancouver for a week's visit.

Capt. Townell went over to Vancouver last night on the Charmer.

Mrs. J. G. Graham is spending a few days with Mainland friends.

Mr. and Mrs. R. M. Palmer, of Kamloops, are visiting the city.

Mr. William Rolston has returned to his home at Ladysmith.

Mr. Ralph Smith, M.P., of Nanaimo, is spending a few days in the city.

Mr. E. A. Evans is visiting Ladysmith.

Mr. Colin J. Campbell, of Ladysmith, is paying the city a business visit.

Mr. D. Davis, of Nanaimo, is spending a few days in the city.

Mr. D. W. Higgins is confined to St. Joseph's hospital seriously ill.

Mr. Frank A. Rodden left yesterday by the Northern Pacific Railroad for Montreal.

Mr. A. J. Leve left by the Northern Pacific railroad yesterday returning to his home in San Francisco.

Hon. W. J. Bowser, attorney-general, left last night on the Charmer for Vancouver.

School Trustee A. B. McNeill went over to Vancouver last night on the Charmer.

Mrs. L. W. Bick, of "Pharos," Alfred street will receive on Tuesday, May 31st, and not again until August.

Mr. R. Marshall, of Ladysmith, has returned home, after a pleasant holiday visit to the Capital.

Mr. J. Hamilton, formerly of the Old Country Stores, Nanaimo, has joined the Victoria staff of David Spencer, Limited.

Rev. Father Nicolay, of Ladysmith, has recently been greeting old friends during a brief visit to the Capital.

Messrs. J. J. Bland and C. E. Jeffs have been among the citizens of Ladysmith visiting the Capital this week.

Mr. and Mrs. D. R. Ker and family left yesterday via the C. P. R. and the Empress of Britain on an extended tour to England and the Continent.

Dr. A. P. Proctor, of Vancouver, who has been here on a short business trip returned last night on the Charmer.

Mr. R. H. Agur, of Summerland, who has been making a protracted visit in the city, left last night on his return home.

Miss Clara E. G. Howell has arrived here from Regina to enter the customs brokerage business with her brother.

Mrs. Renwick, of Hamilton, Ont., is visiting with her son, Mr. Robert A. Renwick, the Deputy-Commissioner of Public Lands.

N. H. Nelles and a party of Canadian surveyors left by the steamer Dolphin, via Seattle, bound to the Yukon to resume work on the survey of the Alaskan boundary.

Miss Gladys Cameron, who has been touring the old country with her aunt, Agnes Deans Cameron, has returned to Victoria after seven months' absence.

Mr. H. E. Beasley, general superintendent of the E. & N. Railway, is paying a visit to the construction work on the Alberni extension. He is accompanied by Engineer Bainbridge and will spend a few days looking over the right of way from Englishman's River to Comox, after returning from Alberni.

## DISCOUNTS RUMOR OF INDIAN TROUBLE

Naas Redskins Resent Statements of the Unscrupulous Whites — Land Question Proves a Serious One

Rumors of a revival of the trouble with the Indians of the Naas have recently been in circulation at Prince Rupert, and considerable relief is expressed in consequence of the explanation of the situation that is made by the Indian Agent, Charles Clifton Perry, who is just at present visiting the Coast.

Mr. Perry expressed himself as "reluctant to say anything, because he knew that practically all the trouble was caused by unscrupulous whites." Some of the people who go up into the Indian territory to stake land are very careless in their manner and speech to the Indians.

The first man who was turned back recently was at Fishery Bay. The Indians had gathered there for the purpose of fishing. This man went into their camp to spend the night, something he had no business to do. He got on intimate terms with the natives, and then began talking too much. He told the Indians they would have to be careful how they treated the white men or the whites would send up a thousand soldiers and make the Naas run red with their blood. This infuriated the Indians, who replied that they would declare themselves and go to war, the same as the Boers in South Africa. They would take up positions behind rocks and kill the whites as they came up. Such unscrupulous men make it very hard for decent white people to go up into the district, no matter what their mission may be. They are ordered back by the Indians.

"For some time," said Agent Perry, "the Indians have had their grievances in the hands of a firm of solicitors in Toronto. Last year they contributed \$900 towards the expense of having their case placed before the Governments of Canada and Great Britain, and this year that sum has been augmented by \$200."

### Seek Amicable Settlement

"At the same time the natives feel sore over the land question," said Mr. Perry. "There is no doubt but that those agitators who quote Lord Dufferin's speech on the land question and King George IV. proclamation as making their title to the land secure, are making it disastrous for missionaries working among the Indians. The Indians get filled up with the idea that the white missionaries are only white settlers who are paving the way for other men to come in and take their land. The Indian land question is a very serious one in many ways, and it behooves the whites to use common sense and discretion when travelling in the Indians' country, until the governments have settled the question for all time to come."

## COURTS ALMOST READY FOR USE

Victoria Club's New Grounds  
Will See Championship Play  
—Other Organizations Are Active.

### Tennis flourishes.

At the Victoria club's new grounds, opposite the Jubilee Hospital, the cinder court is overworked these days. The grass is almost ready, and, as soon as permission is given there will be players aplenty ready to give them work.

It has been decided that the British Columbia championships shall be played at the local club's home. Enthusiasts have been interested in the announcement that the Vancouver tournament will take place on the Denman street courts from July 25 to the 26th, and, also, in the news that the international series have been fixed for early July at Spokane.

At Foul Bay a strong club has been formed which is looking forward to an active summer. Board courts have been constructed, and members are going to have a pleasant time playing their favorite game, occasionally varied with a social dance.

Over James Bay the Kingston street club has been playing for several weeks. The cinder courts, thanks to the energy of Secretary Case, are in better shape than ever before and are going to be maintained so. The membership is increasing, and any day an announcement is expected of the season's first handicap tournament.

## IMPROVEMENTS FOR TRUNK HIGHWAYS

City Engineer Will Prepare a Revised Estimate of the Cost of Paving the Leading Thoroughfares

More time was spent by the streets committee of the city council last night in considering the plan of the city engineer for the improving of the trunk roads leading from the centre of the city to the outlying sections. The Esquimalt Road, Douglas street

and Fort street were decided upon, and the other roads were left for future consideration.

The proposed scheme of the city engineer in some particulars did not meet the approval of Mayor Morley, who urged that the roadways should be paved to as great width as possible and that curbs and permanent walks, where needed, be laid, no steps being left undone to give a good roadway and prevent a recurrence of the dust nuisance. After much discussion and cross-firing it was decided to ask the engineer to submit another estimate of cost of laying bituminous macadam for the whole width of Esquimalt Road from Point Ellice bridge to the city boundary, the city to contribute one-half the cost and to lay

permanent walks towards which the city would contribute one-fifth of the cost, the city engineer to take up with the B. C. Electric Railway Company the question of track levels and paving between the rails with a similar macadam as that to be laid by the city. On the piece from Douglas street to Point Ellice bridge tenders for a permanent pavement will be called for.

On Douglas street, from Market street to the city limits, it was decided to recommend a bituminous macadam twenty-four feet in width with curbs for future boulevards, and from Fisguard street to Market street a permanent pavement forty-two feet in width. On Fort street a bituminous macadam will be laid between

Richmond street and the city limits, full width, and from Oak Bay avenue to Richmond street a permanent pavement thirty-six feet in width.

In all cases arrangements will be made, if possible, with the tramway company in regard to rails and grades. In regard to Esquimalt Road the point was raised as to who would pay for the roadway running through the Indian Reserve, and Mayor Morley stated that if the city was careful this matter could be arranged when the Reserve question is settled so that the government would meet the expenditure, a statement which led Alderman Raymond to remark that the amount promised by the government for arrears of taxes on the old post office has not yet been paid.

Mayor Morley urged making each job a good one, and not accepting the narrow roadways suggested by the engineer, as the latter would not be wide enough and the dust nuisance from the adjoining unpaved portions would be as bad as it now is.

When the engineer's revised estimate of cost is submitted later the question of trunk road improvements will be again considered.

### Canada's Regulations

LONDON, May 27.—An emigration conference under the auspices of the Royal Colonial Institute next week will make strong representations to Canada on the subject of regulations respecting immigrants.

## NEWS OF THE CITY

### At Pemberton Chapel

The Holy Communion will be celebrated at the Pemberton chapel, Royal Jubilee Hospital, on Sunday morning at 8 a.m.

**Excursion of Natural History Society**  
Intending participants are reminded that the excursion starts from the corner of Government and Yates street at 1:30 p.m. sharp today, for the Natural History society's excursion.

### Completing Pavement.

Rapid progress is being made by the city engineer's department in completing the pavement on Pandemonium avenue, and in a day or two the work will be finished.

### Public Health Good.

The health of the city at the present time is exceptionally good according to the health inspector. There have been no new cases of an infectious or contagious nature developed within the past two weeks and of the eight cases now being treated at the isolation hospital all are convalescent.

### Port Alberni Sale

The sale of Port Alberni townsite lots which has been in progress for the last few weeks is still progressing briskly, over \$400,000 worth of property having changed hands since the sale opened. A large amount of the property sold was again placed on the market and turned over at an enhanced price.

### Interest in Island

The interest being taken in Vancouver island in nearby cities, and especially in Seattle, is illustrated by the fact that 1,000 copies of the map of the island recently published by Messrs. T. N. Hibben & Co. have been sold in the Sound City. Ten of the copies were purchased by representatives of the Guggenheim interests.

### Attracted by Victoria

Mr. William C. Blanton, a capitalist of Springfield, Mass., who recently visited Victoria, has written to the Vancouver Island Development League expressing his pleasure in the time which he spent here and stating that he is fully convinced of the future possibilities of the city and island, he intends coming here to settle down.

### Must Observe Regulations.

Hotels without proper sanitary arrangements, and those the arrangements of which are not considered to fully meet the regulations, are now being investigated by the sanitary inspector, and the order has gone forth to the proprietors that the regulations in that respect must be strictly lived up to. Prosecutions will follow neglect to observe the law. Insanitary stables are also occupying the attention of the officials.

### Waiting For Data

Pending the receipt from the B. C. Electric company of data as to the height at which the trolley wires must be strung on the lamp standards on the causeway, the amount of strain the poles will be called upon to bear and other facts of a like nature, work on the erection of the standards is practically held up, but it is expected that by the end of next week the standards will be all erected and the trolley poles now in use removed.

### In Chambers

On an application made in Chambers yesterday before Mr. Justice Gregory leave to reply was granted in the case of Heatherington vs. Humphreys, the plaintiff being ordered to pay the costs of the adjournment. In the case of Eastern Townships vs. Vaughan, an application regarding the taxation of costs, judgment was reserved. The wills of Mr. C. Brewster and Mr. John Clayton have been admitted to probate.

### Literature For Delegates

The Vancouver Island Development League has forwarded to the Rev. T. Albert Moore, who has charge of the arrangements for the Methodist conference to be held here this summer, a large quantity of literature dealing with Victoria and Vancouver island generally. As soon as the new island compendium and the guide to Victoria have been issued, a number of copies of these booklets will be forwarded to Mr. Moore, who will thus be able to place the conference delegates in touch with the city where the sessions are to take place.

### Fishery Overseer

Mr. Samuel North, for many years chief of the Vancouver city police, has been again this season appointed by the provincial government, to act as fishery overseer and police head in charge of the salmon centres of the Fraser, and as far north therefrom as the southern boundary of the River's inlet officer's jurisdiction. The appointment is one which will be generally and heartily approved, Mr. North having abundantly proved himself a valuable and highly efficient officer.

### Uniform For Jail Guards

Arrangements have been concluded by the attorney-general's department for providing all guards, wardens and other officers of the provincial jails with two suits of uniform annually, the distribution of the summer suits of khaki, with rough-riding slouch hats being now in progress. The autumn and winter garb is to be of dark blue. It is not regarded as desirable to uniform the provincial police, as these officers have rather more detective work to perform than have the average police officers, and the uniforms would be an inevitable handicap to the successful performance of their strenuous and exacting duties.

### Parliament of Women

The following programme will be rendered on the evening of the session of the parliament of women at the A.O.U.W. hall, Wednesday evening:—1—Orchestra; 2—tableau, "A future citizen"; 3—solo, "The lords of creation"; 4—tableau, Vancouver. "The married woman her tax must pay, yet no vote has she on election day." New Westminster. "This is the city of the true and the free; no difference is made between her and her." Victoria. "The woman householder must obey the laws, yet she was stripped of her vote without just cause"; 5—Orchestra; 6—A visitor from Mars; 7—Orchestra; 8—The land of happy parallel (the women in parliament assembled); 9—chorus—"Good night ladies." God Save the King.

## THE WEATHER

Meteorological office, Victoria, B. C., at 8 p. m., May 27th, 1910:

Never has a phrenologist drawn so large and representative an audience in Portland, and never has a lecture of this kind proved more interesting. The fact that Prof. Cooper is blind and reads character only by the sense of touch, made his performance in many respects seem remarkable. He is a man of education and is an interesting speaker, his discourse rising at times to something like eloquence. —Oregonian, Portland, Ore., June 4, 1906.

## NEWS OF THE CITY

### Annual Drawing

The eighteenth annual drawing of the Victoria No. 2 Building Society was held last night. A supervising committee was nominated as follows: James Wolcott, Robert Erskine and James Richmond. The results were: 1st, No. 43 A and B, held by Robert Erskine, and entitling him to a loan of \$2,000; 2nd, No. 175 A, B, C and D, held by Harry Donahue, Vancouver, and entitling him to a \$2,000 loan.

### Walking on a Wager

B. K. P. Woodley last week tramped into Pentleton, in the Similkameen district, having walked 6650 miles since April 30, 1908, when he took steamer from Victoria to Seattle. His journey has embraced a dozen or more cities and towns from Mexico to Canada. He is walking on a wager, and is carrying a pack of 75 pounds and must not either eat or sleep at a hotel.

### Inspects Tram Operation

Tramway Inspector Rae, one of the new officials of the provincial government appointed under authority of legislation of last season, is paying a first official visit to Vancouver Island, observing the operation of the Victoria cars, studying the rules locally enforced and comparing conditions prevailing here with those obtaining at Vancouver and New Westminster. All this is preliminary to the promulgation and strict enforcement of provincial rules now under consideration for the better guarantee of the public safety.

### Want Cream Tester

An influential delegation of farmers resident in Sanich district and the adjacent islands yesterday interviewed Premier McBride, being accompanied and introduced by Mr. A. E. McPhillips, M.P.P. (Hon. Mr. Eberts being indisposed). The object sought was the appointment by the Minister of Agriculture of an official from the department to test the cream supplied to the two local creameries, thus checking the test systems of both the vendors and the vendees. Hon. Mr. Bowser will give immediate consideration to the request.

### Issues New Booklet

A new pamphlet on British Columbia and its opportunities has just been issued by the C.P.R. company and contains a number of interesting and instructive articles—some re-written and brought up to date and others new, dealing with the resources, trade and transportation, lumbering, fisheries, agriculture, cost of orchard planting, how to make an income from the invested capital, educational conditions, weather, etc. The pamphlet contains two maps, the one of C.P.R. lands in British Columbia now on the market, and the other of the company's irrigated Alberta lands. The booklet is profusely illustrated.

### Beavers Doing Damage

Authenticated reports have just been received from Otter Flat, in the Similkameen district, that the beavers in that section of the province have entirely dammed up the river with the consequence that hundreds of acres of good farming land are being flooded and the government road is under water, so that it is impossible to travel over the public highway. It is understood, however, that aid is being given and the ranchers in that section are longing for the time when the law permits them to kill these destructive quadrupeds, despite the fact that they typify Canadian industry.

### HEARS COMPLAINT

Board of Horticulture Dealing With Objections Raised by Florists.

Routine business largely occupied the attention of the provincial board of horticulture during its sessions yesterday, varied by the reception of a representative delegation of Victoria florists who presented what they regard as district grievances in connection with the inspection of imported greenhouse stock. The case of the florists was gone into at considerable length, and everything that can be done, consistent with the protection of the province from introduced infection, will be done to remove all cause of complaint. The board's sessions continue today.

### BUILDING ACTIVITY

Present Month Makes Remarkably Fine Showing in Comparison With Last Year

With the month yet unfinished the building returns show a remarkable increase over those for the whole of the corresponding month a year ago, indicating the activity prevailing in local building circles. Up to yesterday permits had been issued by the building inspector for proposed structures to aggregate in value \$251,115. For the whole month of May last year the value was but \$158,620. Yesterday permits were issued to William Mayliss for a dwelling on Fairfield Road, to cost \$3,200; to James Walker for additions to dwelling on Shakespeare street, to cost \$200; and to the B. C. Land and Investment Agency for alterations to the building adjoining the Law Chambers, Langley street, to cost \$2,500.

### POULTRY IN INTERIOR

Mr. M. A. Jull, Expert in Fowl Culture Returns from Tour.

Mr. M. A. Jull, the poultry expert attached to the provincial department of agriculture, has just returned to headquarters from a tour which has embraced the Kamloops, East and West Kootenay and Okanagan districts, in the course of which he addressed some fifteen of eighteen public meetings on the subject dear to his heart and has had the satisfaction of noting the formation of new and vigorous associations in the South Okanagan (Kelowna), Nelson, Cranbrook and Grand Forks districts, making ten progressive associations now in existence throughout the province. As a result of recently rapidly developing interest in poultry questions, the standard of stock is showing marked improvement; and profits for those engaged in poultry farming are correspondingly. The importations of stock are chiefly from the Southern and Eastern States, with some contributions from the eastern provinces, the interior poultrymen showing decided preference for the

heavier breeds—the Orpingtons, Wyandottes and Furred Plymouths—while their brethren of the lighter White Leghorns. The imported Plymouth Rocks appear to be coming in greatest number, and with singular appropriateness, from the New England states.

### AMUSEMENTS

#### Pantages Theatre

A regular children's matinee at Pantages this afternoon, that the little folks may have the opportunity of seeing and hearing the wonderful child actor, Master Clifford Carr, who at the very beginning of life has attained a position in the amusement world for which the average aspirant strives for decades and seldom reaches. Clifford's parents, the Schillings, the Gudybes, the Jeffersons, and the regular Pantages attractions will assist in entertaining.

Two performances tonight ends the engagement of this excellent vaudeville show.

#### New Grand Theatre

This afternoon and tonight, the performances of the big bill at the Grand will be the final ones, and a highly attractive bill is arranged for next week. There will be a full matinee this afternoon as usual.

The ventriloquist and musical act of Hugh J. Emmett and Hildred Emmett closing the show this week is the best in that line that has been at the Grand for months. There are also the Strength Brothers with a balancing turn, the Holdsworths in a singing musical and dancing act, in which the banjo playing is a feature, Smith O'Brien, the Irish singer, and Dean and Price in a race college show that gets a great big hand and lots of laughter. The regular features are billed as usual.

### A RICH REWARD

Prospector Stokes Rich Claim for Woman Who Returned a Lost Wallet.

The Portland Canal district already has its romance, without which no mining camp can be looked upon as fully fledged—only in this already famous northern wealth-producer, Dan Cupid is rudely and altogether left out in the cold, while avaricious Dame Fortune has stepped in. Months ago when Stewart was a camp of C.P.R. store and a log hotel, Mrs. John Cann, then the only woman in the camp, was acting as landlady. Ole Olberg, one of the old-time prospectors, who made a small "turn" on the outside, arrived in camp flush with money, which he threw around quite profusely, and finally was down to his last few hundred—four hundred in fact. He dropped all this in one chunk, so he thought. One morning he got up to find his wallet containing every cent, strangely missing. He hunted high and low for it, and finally went to the proprietors of the hotel and told about his loss. He was handed his wallet with every cent in it. Mrs. Cann having found it on the floor in his room. Olberg was most profuse in his thanks, and departed for the hills after promising Mrs. Cann to locate her a "mine." He returned finally after weeks of hardship in the hills, and presented Mrs. Cann with the location paper for the Good Luck Mine. A Prince Rupert company recently took this property over for \$15,000.

### MUST BE COURTEOUS

Chairman of Streets Committee Read Little Lesson to Members of the Board.

"Every person who comes before this committee is entitled to be received with courtesy," declared Alderman Bannerman, chairman of the streets committee when, at a meeting of that body last night Alderman Fullerton took occasion to heatedly refer to certain statements made by James Wood, of the Woods Motor Company, and Fire Chief Davis and suggest that the committee had better find out who was "lying." Alderman Fullerton's remark called forth expressions of regret from some of the other aldermen, and gave rise to the chairman's statement.

Mr. Wood applied to the committee for the right to place a gasoline tank under the sidewalk in front of the premises of the motor company on Wharf street. He had applied to the fire chief, whose duty it is to issue permits for the storage of the gasoline. There was no other place on the premises to place the tank, and the fire chief, feeling that he had no jurisdiction to interfere with the streets, had referred him to the city engineer, who had referred him to the committee. The tank would meet all requirements of the by-law, and all precautions would be taken.

Alderman Fullerton wanted to know, since the chief had refused the permit, why Mr. Woods was coming to the committee. Alderman Mable suggested that in view of the advice given to Mr. Woods, the latter had a perfect right to appear before the committee and explain. Mayor Mevey stated that the chief had no jurisdiction over the sidewalk, and Alderman Fullerton declared that that official refused to have anything to do with the matter. The chief had stated to him (Alderman Fullerton) that he did not approve of Mr. Woods' application. "He told me he did approve of it," quietly answered Mr. Woods. "Well, then, bring the chief here, and we'll find out who is lying," snapped the Ward Three alderman, his statement bringing forth protests from others of the board.

"You and the chief are not the only ones who have the interests of the city at heart," said Alderman Mable, and while Alderman Fullerton was declaring that he never accused anyone of lying, the motion to have the chief of the fire department report on the matter was put and carried.

### OBITUARY NOTICES

#### Leonard

The funeral of Mr. James Leonard took place yesterday afternoon from the parlors of the Victoria Undertaking Company, and at the graveside, the Rev. W. Christ officiating both at the church and the graveside. There was a large attendance of mourners and many flowers. The following acted as pallbearers: Messrs. Charles Mitchell, M. K. Nelson, W. M. Tyson, W. McGrath, R. X. Roberts and C. Graves.

Subscribe for THE COLONIST

#### Hurst

The funeral of the late Zoe Will Edith, infant daughter of Mr. and Mrs. Hurst, took place yesterday afternoon from the residence of Ald. McKeown, Yates street, at 2.30 o'clock where an impressive service was conducted by the Rev. A. E. Roberts. The hymn sung was "Safe in the Arms of Jesus." There was a very large attendance of sympathizing friends, many beautiful floral emblems being presented.

#### Laing

The death occurred last night of J. H. Laing, for over twenty years a resident of this city, at the family residence, Davie street. He was 60 years of age, a native of Saxony, Germany, and came to America twenty-eight years ago, landing first at New York city. When coming to Victoria he started in the grocery business, but later became identified with the Simon Lelser Company as commercial traveller. Yesterday morning he was thought to his affairs as usual, though not feeling well. The late Mr. Laing was a member of the U.C.T., widely known among local business men, and highly respected. A widow, living here, and two sisters and a brother in Germany mourn his loss. Interment will take place at the Jewish Cemetery. The funeral arrangements will be announced later.

### INCIDENTS OF MANY WARS

(Continued from Page 2.)

the necessary material for the building of the railway across the great Nubian desert, when the operations were under the command of a famous Canadian, Sir Percy Girouard. The campaign which culminated in the battle of Omdourman in 1898, the battle of Omdourman was then touched upon, ending with a picture taken at the moment when the Union Jack was run up on the gates of Khartoum and Gordon's death was avenged.

Mr. Villiers then brought his audience to the late Boer war in South Africa. Several pictures were shown of the Canadian troops, notably at the surrender of General Cronje. Particularly conspicuous. Mr. Villiers spent some time with the contingent, and found them as fine soldiers as he had ever met.

In 1904 Mr. Villiers joined the Japanese forces at Port Arthur, and at that place he had an interview with Admiral Togo, the hero of the war. Looking at the pictures of the mighty engines of death and the enormous shells weighing 500 pounds which were used in this war, one began to realize the horror of it all.

As lately as last August, Mr. Villiers was sent to join the Spanish forces in Morocco, who were fighting against the Rifis under their chief, El Agui. He told how the war broke out over a trivial incident and showed many fine pictures of every phase of it.

At the conclusion of a most interesting lecture the lecturer showed on the screen sketches he made seventeen years ago of an imaginary war in 19—, the most important factor in which was an unheard-of machine called a dirigible balloon. He went on to say that Germany now had twelve of these mighty machines and that Russia had ordered a fleet of them, and yet Britain had only one. He further suggested that if it were decided to send a money contribution to aid in the defence of the empire, it might be well to stipulate that the money be expended in building airships.

"If we want to live in peace, we must not only be masters of the seas, but master of the air," concluded Mr. Villiers. The picture of his majesty the King was then cheered to the echo.

Mr. Villiers then went on to recall his visits to the late King, and told of many incidents illustrating the lovable characteristics of the dead monarch. The proceedings terminated with the cheers for his Honor, Lieut.-Governor Paterson, Mr. Villiers, the Chief Commissioner, Lieut.-Col. Hall, of the Boy Scouts. The new uniforms of the Boy Scouts, which have just been received, were worn for the first time at the lecture. The proceeds are to be used for a summer camp to be held by the Scouts in July.

Jos. Grissenthwaite, Jr., of Edmonton, Alberta, a well-known lantern expert, threw many pictures on the screen.

### HEAVY DRINKER CURED

Samaria Cured Him and He Helps Others

A man who has been released from the awful cravings of drink, and whose first thought is to help others show the spirit of true brotherhood and philanthropy. Read his letter: "The Samaria Remedy Co., Toronto, Ont.:

"Will you please send me book on drink, also circulars relating to your valued remedy for the drink habit. I wish to hand these to a friend who is going to ruin through drink. You will remember that I have taken your remedy, and I find it all I claim it to be. I never think of taking or using strong drink in any way, as all desire for it has left me. I cannot speak too highly of your wonderful remedy. You may use my name in any way you wish in public.

H. Lilywhite, Bridgen, Ontario.

Samaria Prescription is tasteless and odorless, and dissolves instantly in tea or coffee, or can be mixed with food. It can be given with or without the patient's knowledge. It removes the craving for drink, builds up the system and restores the nerves. Drink becomes distasteful and even nauseous.

Drink is a disease, not a crime. One drink of whiskey always invites another. The inflamed nerves and stomach create a craving that must either be satisfied by more whiskey or removed by scientific treatment like Samaria Prescription. Samaria Prescription has been in regular and successful use by Physicians and Hospitals for over ten years.

If you know of any family needing Samaria Prescription, tell them about it. If you have a husband, father or friend that is drifting into drink, help him save himself. A FREE TRIAL PACKAGE of Samaria Prescription, with booklet, giving full particulars, testimonials, price, etc., will be sent absolutely free and postpaid in plain sealed package to anyone asking for it and mentioning this paper. Correspondence sacredly confidential. Write today.

THE SAMARIA REMEDY CO., 75 Jordan Chambers, Jordan Street, Toronto, Canada.

# In Woman's Realm

## Here and There

There is not a city in the United States and scarcely a town in Canada where provision is not being made for neglected and dependent children. A very passion of compassion seems to have taken possession of men and women of all ages and classes. All sorts of institutions are being opened for the care and protection of children whose parents have failed in their duty towards them, or of whom they have been robbed by death. Wise judges and careful administrators, as well as earnest philanthropists are engaged in this work. That all this is right no one can doubt. Too much care cannot be exercised to prevent boys and girls growing up to be a menace to society. If parents fail to do their duty, society must endeavor to make up for the failure to as great an extent as possible.

But there are thinkers who see in this a danger. There are women devoting their time to the salvation of other people's children who are neglecting their own. Fathers are giving of their money and their time to public affairs whose boys and girls are suffering for want of their control, their protection and their love. Careless parents are growing more indifferent because they see that the responsibilities to which they have undertaken will be borne by others. We are in danger of forgetting that a good home is the only place where children can enjoy the highest blessings.

Among those who fear that there is a tendency to underrate the power of parental influence is the Roman Catholic Archbishop of St. Louis, speaking of the National Convention of Charities which is to meet soon in that city. He said among other things: "Detention houses, orphan asylums, and industrial schools are only places of last resort. They never do, they never can, take the place of the home."

"All helpful charity and all sane social activity today should be directed to the building up and sustaining of the homes of the poor, and every means taken to render these homes habitable and healthy."

"Unfortunately the tendency today is to get away from the home—to throw the children on the city or on private charity. Divorce courts are the feeders of the juvenile courts. The machinery is complete and quite effective. When it gets through there is left the ruined home—the cast-off wife, and the well-filled orphan asylum."

"Perhaps our coming convention will go on record in opposition to our present divorce laws and the general trend, both of legislation and public opinion which assumes so easily the responsibility of a home and then casts it aside so lightly."

Associated with this is the further question, how, namely, to treat those worthless husbands and fathers who neglect their homes and fail to support their children; who work when they will; leave their homes on the slightest pretext, and become immune from any penalty for their inhuman conduct.

"In our orphan asylums at least 50 per cent. of the children are not orphaned at all, but the children who are possibly drunken parents, who refuse to support them; and we are asking the pennies of the poor to support these children while their parents are making the rounds of the saloons, or perhaps basking in the smiles and favors of the politicians. There ought to be a law compelling these men to work for their homes and children first, and if they will not do so, then they should be compelled to work for the state, which in turn would make the usufruct of their labors in some way support the children."

Fortunately we in Canada are not confronted by the poverty of which Archbishop Glennon speaks, nor is the problem of divorce insistent, but there is, nevertheless, much in what he says that will serve as food for thought for all who have the best interests of the children at heart.

Canada has always been noted for the skill of its housekeepers. From the earliest pioneer times thrift and industry and, to some extent, good taste have been the rule in the homes. No matter how humble the house, it was clean and tidy and the meals were carefully cooked and decently served. It is still a marvel to women from the old land how the mistress of a Canadian home can contrive to accomplish so many and such various tasks unaided.

It is, perhaps, because of the efficiency of Canadian women that the movement to establish schools of domestic science found such ready support among the people of Canada. Anything that would help them to do their work better and more easily was eagerly welcomed by the women of Ontario where the first department of Domestic Science was established at the Agricultural College at Guelph. Before long Women's Institutes, where the knowledge gained by the few was taught to the many housewives throughout the province, were formed in almost every district. The success of the Guelph School of Do-

## RESIDENTIAL SCHOOL FOR BOYS

Newest and most complete School Building in Canada. Very healthy and beautiful situation. Ten acres of Playing Fields. Large up-to-date Gymnasium. Many recent successes at R. M. C. and Universities. For Calendar, apply REV. GEO. F. WOOLLCOMBE, M. A. (Oxon.), Headmaster.

domestic Science led to the founding of a similar department in Toronto University. The finest school of this kind in the country is, however, that at the Macdonald College at St. Anne de Bellevue, near Montreal, where, through the munificence of Sir William Macdonald and the wisdom of Professor James Robertson, Canada's women can enjoy the advantages in the study of household economy possessed by few in any country in the world. It is very pleasant to think that this school for women is doing a work in drawing closer together for distant parts of the Empire. There is already a student at the Macdonald College, South Africa. This young lady, Miss Van Duyn, is the daughter of a Boer farmer. She was sent to Canada by the Agricultural Department of the new government of the Transvaal. She has proved a brilliant student and will finish her two years' stay in Canada by a course at Guelph. Her mission on her return will be to spread among the women of her native land the knowledge she has gained. For that purpose she will make herself thoroughly familiar with the workings of Women's Institutes. Though a patriotic South African, this young lady frankly acknowledges that the English have done wonders in the improvement of her country, and tells a writer for the Toronto Weekly Globe that "Even now I believe the British feeling to be strong enough to prompt our men to go out to Britain's cause like Canadians or any other of the colonies in defence of the Empire." It is very pleasant to think that in this great work of healing, Canada will have its share. The war was scarcely over when Canadian women were at work in the schools established in the Transvaal and now the graduate of a Canadian college will spread among Boer women not only her knowledge of household economy but her appreciation of Canadian institutions. It is not unlikely that others of her countrywomen will follow her example and prepare themselves in Canadian schools to take their part in developing the rich agricultural resources of their native Dominion.

We hear and think so much of the length of the reign of Queen Victoria and of the events that have happened since, that we are apt to forget that it is not yet ninety years since there was nothing but hatred and contempt in the hearts of all England towards the occupant of its throne. The story of George IV. and his most unhappy wife is now almost forgotten. But those who are apt to look back with regret on the good old times would do well to take down their history or some other chronicle of that time and then look at the pictures of Queen Mary and her husband and their six happy children. It will not be more to console them than there has been progress and not decadence in the years that have gone by.

## AGE.

His eyes like this grey mist are sorrow-dim,  
No interest in the busy city's stir  
Can kindle them to brightness, din and whirl  
Of myriad wheels alarm and weary him;  
A hundred faces pass, and some are grim,  
And some are gay, but all are strange and new.

He has so many years, this city few,  
And yet it shows no gentleness to him!  
But, lo! a vista through a cross-street gleams;  
There lie the quiet waters and the hills,  
And there the sun is shining; see, its beams  
Have turned the mist to pearl and daffodils;  
A sea gull, high in air, has wings of gold—  
Look up, sad eyes, the grandest things are old.

Note—This sonnet from the McGill Annual of Vancouver, was written by Miss C. E. Harris, whose parents live on Moresby Island, in the Straits of Georgia. The little gem is one of which not only her parents, classmates and teachers, but the province, may feel proud.

## COMPROMISING LETTER

Charles R. Heike Confronted by Awkward Document in Sugar Frauds Case.

NEW YORK, May 27—A letter from Chas. R. Heike, secretary and treasurer of the American Sugar Refining Co. to Frank G. Turner, an employee of the South Boston plant of the company, was introduced this afternoon in the trial of Heike and others. The letter was dated December 24, 1904, and was introduced to show that Heike not only knew of the existence of the so-called technical statements and of their being tampered with, but that he conceived the idea of tampering with them. In arranging about certain changes, Heike in one paragraph of his letter said: "I make these changes in the office in New York and I do not alter the accounts of the refinery, as it does not seem to me desirable that there should be two sets of weights on the books of the refinery, one set, for instance, representing the customs house weights, on which duty is paid, and another set representing melting weights, giving a larger number of pounds."

State of Ohio, City of Toledo, Lucas County, ss.

Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of Hall's Catarrh Cure.

FRANK J. CHENEY.  
Sworn to before me and subscribed in my presence, this 6th day of December, A. D. 1906.

F. J. CHENEY & CO., Toledo, O. Sold by all Druggists, 75c. Take Hall's Family Pills for constipation.

## LEGAL INTELLIGENCE

(Before Gregory, J.)

Hirsch v. Shenk and Shenk, land sale of, plans on file, sale according to, disputed boundary, occupation for over 20 years.

Action to recover possession of a portion of section 32, Esquimalt road. Defendants had purchased three lots in section 32 from Mrs. Rothwell, according to a plan filed in the land registry office, and obtained a conveyance of the lots according to the plan, and had a title more than the frontage called for. Defendants then sought to claim fifteen feet in addition of land purchased by plaintiff from the Byrnes estate. All the conveyances had been made with reference to certain registered plans showing the boundaries between the plaintiff's and defendants' land. An old fence in existence before the plans were filed by the defendants' predecessors in title encroached some 15 feet on the plaintiff's land. Defendants sought to claim this strip outside of their conveyance on the ground that Mrs. Rothwell, their vendor, had been in possession of the tract for over 20 years, and subsequently to action brought had procured from Mrs. Rothwell a quitclaim deed of this tract. All leases and sales of the property which had been made by Mrs. Rothwell had been made with reference to the plan filed, and she deposed that she had always intended to make such conveyances, and had always supposed that the boundary line between the plaintiff's and defendants' land ran where the old fence was. It was not until after the commencement of these proceedings that she had been otherwise informed.

The taking of evidence was completed, and argument adjourned until Wednesday next.

W. J. Taylor, K. C., for plaintiff; Walls, for defendants.

(Before Morrison, J.)

Harvey v. Kirk, trust deed, reformation of, settlers intention.

Action to reform a deed of settlement to carry out the intention of the parties at the time the trust was created. A voluntary settlement was created by the plaintiffs of certain trust moneys. By the settlement, the investment of the moneys were limited to those securities provided in the British Columbia Trustees Act. The intention of the plaintiffs' settlers was to enable the trustees to invest the fund in real estate. A decree was granted accordingly.

W. J. Taylor, K. C., (Innes with him) for plaintiffs; Hills for the trustees; Prior (Guardian ad litem) for the infant.

(Before Gregory, J.)

Fetherston v. Stetson, principal and agent, instructions to list property for sale, whether such instructions convey authority to bind principal to any future agreement to sell thereunder.

Action for specific performance of an agreement purported to have been made as agents to list property for sale, whether such instructions convey authority to bind principal to any future agreement to sell thereunder. The agents, Pemberton & Son, undertook to commit her to an agreement for sale without consulting her. On hearing of the terms she repudiated any such arrangement. Pemberton gave a receipt for a cash deposit and endorsed it confirmed. On the strength of this, plaintiff brought action.

Held that the instructions to list the property did not convey any authority to bind the owner, Yates, for plaintiff; Jackson and Walls, for defendant.

## Seeking Pure Milk Supply

LONDON, Ont., May 27—Medical men have formed a milk commission of prominent physicians, with Mr. Callan as chairman, and will appear before a special meeting of the board of health tomorrow to present details of their investigations into the city's milk supply.

## Mortality Among Cattle

KINGSTON, May 27—Veterinary surgeons are busy now caring for cattle stricken with milk fever, or a species of paralysis due to eating too freely of green food. Quite a number of cattle have died, and the loss is as high as one thousand dollars a week to the farmers.

Diarrhoea should be cured without loss of time and by a medicine which like Chamberlain's Colic and Diarrhoea Remedy not only cures promptly but produces no unpleasant after-effects. It never fails and is pleasant and safe to take. Sold by all druggists.

### VICTORIA ADDS WIN TO RECORD

**Yakima Nine Bit Dust by 5-3 In Fastest Game Here This Season—Some Smart Fielding Work Done**

BASEBALL fans saw the sprightly lads hailing from Yakima, Wash., bite the dust last night in the season's fastest game. It took Victoria just an hour and three minutes to run out winners by a score of 5 to 3. There were some errors, but in the main the ball was neat and pretty. What tragedy there was found the visitors playing the title roles.

It was the same old "Rube," pitching in the same old style, and wearing the same old smile, who was the prime factor in the invaders' defeat. He twirled in stellar fashion. But Steenson wouldn't have been so happy without the league support which he received. The way lanky "Bob" snapped up those grounders at short would have put a 60 h.p. motor car to shame for speed. The graceful manner, Brown, centre field, gathered in the tallies came as an object lesson to the young aspirants in the tree branches, and, last, but not most important, the slugging Victoria gave the leather would excuse the fans concluding that Wattalee has copped a Wagner or Cobb.

#### Two in First

Two runs went up for Victoria in the first inning. Moore, Murrah and Whyte went after McDonald's deliveries like fiends, and when the smoke and dust cleared away Victoria had got away to a flying start. Yakima's grey jerseyed boys fanned vigorously in the first three times to bat. "Rube" was a Chinese puzzle to them, and even when they did pick the sphere from the atmosphere there seemed to be gloved paws everywhere. In the third the visitors' fate was sealed. Moore and Murrah inaugurated the procession, which was stimulated by an error. Whyte went to the initial bag on another mistake. McDonald hit, and after the strangers fumbled Moulton's inoffensive knock, they found another three runs against them. Robertson brought the agony to a finish.

Five to nil, and only the third! Honestly it looked as though it was a shame to pluck the plum. Fans with the old British sentiment of sympathy for the under dog, began to cheer the Yakimas. They could have spared themselves the trouble. The enemy thrived on adversity. While "Vic" played error and hitting well, they could not get beyond the mark set. Yakima began to find Steenson a little bit. One run went to them in the fifth, the sixth and the eighth. At that, however, they weren't all earned.

The detailed score follows:

Yakima	A.B.	R.	H.	P.O.	A.	E.
Oldfield, l.f.	4	0	0	1	0	0
Bishop, 3b.	4	0	1	1	0	1
Whitmore, 1b	4	1	1	17	0	1
Rose, r.f.	4	0	0	2	0	0
Sells, s.s.	4	0	1	0	4	3
Wright, 2b.	3	1	1	1	6	2
Gribble, c.f.	3	0	0	0	0	0

Obier, c.	3	1	1	2	1	1
McDonald, p.	3	0	2	0	4	0
Victoria	32	3	6	24	15	8
Wattalee, l.f.	4	0	1	1	0	0
Moore, r.f.	3	2	1	2	0	0
Murrah, 2b.	3	1	1	4	2	0
Whyte, s.s.	4	2	2	1	1	0
McDiarmid, 3b.	3	0	2	1	3	0
Moulton, 1b.	4	0	1	5	1	1
Robertson, c.	4	0	0	10	1	0
Brown, c.f.	4	0	0	3	1	1
Steenson, p.	2	0	0	0	1	1
Runs by Innings	1	2	3	4	5	6
Yakima	0	0	0	1	0	0
Victoria	2	0	3	0	0	0

Stolen bases, Wright, Moore, Whyte, Sacrifice hits, Wright, Murrah, McDiarmid. Two-base hits, Obier, Moore. Bases on balls, by McDonald 1. Struck by McDonald 1, by Steenson 1. Hit by pitcher, Steenson by McDonald. Earned runs, Victoria 1, Yakima 1. Left on bases, Yakima 3, Victoria 6. Pass balls, Obier 1. Time of game, 1 hour 3 minutes. Umpire, Geo. Burnes.

#### NOTES

McDonald, who pitched for Yakima last evening, is a graceful and a useful twirler. In the opening innings he went astray chiefly because of the rather poor support of him. He has no call to feel discouraged.

Once more it is necessary to say a word about the work of that young Scotsman, "Bob" Whyte. He snapped up one hot shot that would have worried the best. It was quick and spectacular. Once in his hand, of course, the runner didn't have a chance.

Did you notice Brown's fielding in the centre garden? Any soaring shots that came his way were as good as dead as when they left the bat. But there was a shooting star sent out of which the fans had a little fear. Brown, however, was there. One foot closer in and he would have missed; a step farther back would have been equally fatal. Bravo, Brown!

No use talking, Murrah, McDiarmid, Whyte, Moore and Wattalee made a formidable hitting squad.

Referee George Burnes made good last night. He stood in the way of a sizzling liner, and the impact thereof was resounding. A man was on second and was complacently advancing to third. It was a situation that required a prompt decision—one that required intimate knowledge of the rules. Burnes on the spur of the moment, Burnes didn't hesitate. Back the runner went to second, while the hitter remained at first. He was right, all arguments to the contrary notwithstanding.

#### TODAY'S MATCH

Victoria and Yakima ball teams will take the field in the second of their matches at 2:30 o'clock this afternoon. The contest is billed for the Royal Athletic Park.

Surplus, the veteran local twirler, who has been pronounced in his mid-season form, will pose in front of Referee George Burnes. Fryberg will take "Brook" Robertson's place at backstop, his fingers wholly healed and in shape to give the fans a demonstration of how the post should be filled. For the rest the team will be unchanged.

**British Cricket.**

LONDON, May 27.—In the cricket match today Yorkshire beat Derbyshire by an inning and 142 runs. Somersetshire was beaten by Lancashire by an inning and 243 runs.

### ITCHING TO GET BACK INTO GAME

**Several New Westminster Lacrosse Old Guard Expected to Be Seen Wielding Sticks Before Long**

NEW WESTMINSTER, May 27.—There is a possibility that before the lacrosse season is very much further advanced some of the old guard of the Salmonbellies will again be seen in a Red and Blue uniform, the latest candidate for this honor being Harry Latham, who quit the game three years ago when still one of the best home players in the business. Harry has not been doing much strenuous work since then, most of his time having been occupied counting the civic sheldals in the city hall. Now that he has entered business for himself he may have a little time to devote to recreation on the greensward.

Latham has been approached by some of the club officials with a request that he connect himself with a lacrosse stick once again, and while he has not yet given a definite answer, he is understood to have stated he would not be averse to playing a few games this season provided his old tilioum, Alex. Turnbull, was in the game with him. As Turnbull has made a remark to the same effect concerning Latham the hopes of the local supporters of the national game are rising every day.

With Turnbull and Latham back on the job, Con Jones would be faced with a distressingly difficult task in plying the Minto cup from its sockets in the Carnegie library.

Lives are out for another warrior of the past who has still enough youth on his side to make it mighty interesting for any visiting lacrosse team, but the officials will not name him until his present reserve has thawed a trifle.

#### WINNIPEG ENTERS FOR STEWARDS' CUP

WINNIPEG, Man., May 27.—After practicing hard for a number of weeks on the Red River and undergoing a few tests, the Winnipeg four oared crew, stroked by Con Riley, cabbed their entry in England for the Stewards' cup. The oarsmen went over a course of a mile and a half on Wednesday night covering the distance in nine minutes and it was then and there decided to cross the water. The crew will leave the city on Monday night.

#### HILLS AND J.B.A.A. ARRANGE A GAME

The Beacon Hill and James Bay baseball teams will indulge in a little friendly bickering at the Hill on Sunday morning. The former will take the field as follows: Catcher, Townsley; pitcher, Steele or Laing; 1 b, P. O'Rourke; 2 b, Gravelin; s.s., McDougal; 3 b, Russell; l.f., Steele; c.f., Laing; r.f., Monck.

#### TODAY'S FIXTURES

Baseball—Yakima v. Victoria, at 2:30 o'clock, at the Royal Athletic grounds.  
Cricket—Ablion v. Garrison, at Beacon Hill; Ablion v. Strawberry Vale, at Strawberry Vale.  
Rifle—Spoon shoot under the auspices of Fifth Regiment association.  
Trap shooting—Practice shoot, open to all shot-gun artists, conducted by Capital Gun club, at Willows traps.

### WARDS TO PLAY AGAIN FOR CUP

**Local Second Division Soccer Champions Will Meet Ladysmith Third Time on Nanaimo Grounds**

North Wards is going to fight out with Ladysmith the question of the second division island league soccer championship.

After the Ward's recent reverse on the latter team's grounds, which placed the rivals even with one game each, the Victoria lads protested. The basis for their complaint was that Ladysmith, loaded with the Mitchells, of Nanaimo, (senior men), and played others who had been with another team throughout the season and were not registered with the competing aggregation the required length of time.

Before this protest came before the soccer tribunal, Manager Christopher, of the Wards, received a letter couched in the kindest terms and showing surprising consideration for the Capitals from the association's secretary, who resides in Ladysmith. "Better save your \$5" the aforesaid communication remarked, "you'll only lose it and have to play anyway." He added that the Mitchells hadn't played senior this year and the players were all duly registered.

#### Match at Nanaimo.

Mr. Christopher gave the information careful consideration. He had to admit that, unjust as it was, it was probable that the Wards would get the worst of a verbal debate. And so, muttering something far from complimentary respecting the association's constitution, which allows seniors of years standing to mix with legitimate second divisioners, he forwarded a reply agreeing to meet Ladysmith at Nanaimo on Saturday, June 4th.

#### CRICKET MATCHES THIS AFTERNOON

This afternoon the Ablions are playing two matches. One team will meet the Garrison C. C. on the Beacon Hill grounds, commencing at 2 p. m., and another to Strawberry Vale. The teams are as follows:  
Versus Garrison: C. W. Scott, F. Roison, E. Parsons, C. Gifford, M. B. Lloyd, C. Tunnard, E. W. Ismay, J.

### Winner Diamond Sculls in 1904 Again Training

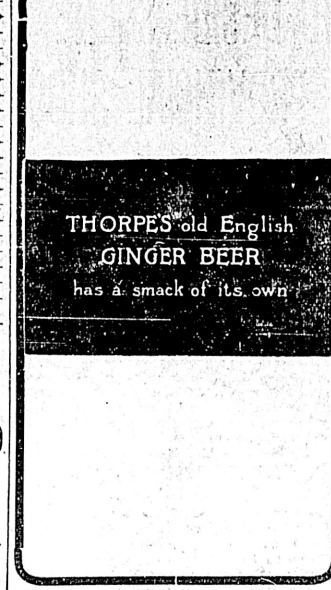

Lou Scholes is preparing for the Henley regatta and sportsmen are calculating his chances of regaining his old time form.

Individual scores did not reach the high mark previously set. Corporal Ashdown Greene, who made the highest score, both in this as well as in previous matches, only reached 40 out of the maximum of 50. At the previous match he reached the remarkable total of 48.

#### A CLAY PIGEON SHOOT ANNOUNCED

At the Willows traps this afternoon a practice shoot is being held under the auspices of the Capital Gun club. While all members are expected to attend an open invitation is extended all fond of the sport to be on hand to participate.

On Tuesday Messrs. Lenfesty, Stevenson and Montell, of this city, journeyed to Duncan and give the trapshooters of that city a demonstration over rather crudely improvised apparatus. A very enjoyable time was spent. The sportsmen of that town are inaugurating the pastime and have

asked Victoria to assist by suggesting and practical aid in laying out suitable traps, etc. It is probable that they will return the visit of the local men at an early date.

#### BOWLING CONTESTS EARLY NEXT MONTH

On Saturday, June 4th, will take place the season's second important bowling competitions under the auspices of the Victoria club. President Stewart has presented prizes for pairs and single contests. Two awards valued at \$5 each and two of \$2.50 are being offered for pairs, while a couple of silver mounted bowls have been given for the singles. Entries for these matches must be in the hands of the secretary by June 2. The Beacon Hill greens are in splendid condition, and exciting games are taking place almost every day.

### GOOD SCORE IN NATIONAL SHOOT

**Victoria Cadets Did Well in Yesterday's Competition for Dominion Government Shield—Results in Detail**

The High School Cadets yesterday, at the Drill hall, shot the fourth and last match in the Canadian Rifle League Match series, which is open to teams from all cadet corps in Canada. The match took place over the miniature range of twenty-five yards, and the shooting was the best which has been registered so far. The cadets used the Enfield rifle, with the Sutherland sights. About twenty-five members of the corps shot. The ten highest scores made have been sent to Ottawa, where they will be compared with the others made throughout Canada, and the winners announced. While the total obtained was higher than that of any preceding match, the

**Travis Beaten at Golf**  
NEW YORK, May 27.—Walter J. Travis, the title holder, was beaten one up by C. M. Brown, of Seakill, in a sensational match in the second round of the Metropolitan Golf Association tournament on the Morris County, N.J., links today. The match lasted 22 holes. Among other survivors of the day were Max Behr, the new champion; Gardner White, the Inter-college holder; Jerome D. Travers, former national champion.

By the by, isn't it humorous the manner in which candidates are cropping up for the Diamonds, believing this to be an easy year? Word comes from the far east that Halifax is to have an entry. An easy year, eh? Don't delude yourselves, gentlemen; the Diamonds never proved a soft spot for anyone, and if you don't believe it, ask Lou Scholes. He will doubtless tell you there isn't a tougher proposition on earth. There is invariably some one across the water capable of keeping the rare old trophy in the motherland.

## TO DECIDE SCENE PROVINCIAL SHOOT

Victoria Delegates Left Yesterday Afternoon to Attend Meeting of B.C.R.A.—Vancouver Sure to Get Event

Although the question will not be definitely decided until tonight's meeting of the executive of the British Columbia Rifle Association, to take place at Vancouver, it is a foregone conclusion that the annual provincial meet will be held over the Terminal city range.

Col. Currie, Sergt.-Major Caven and Sergt. Collings left by last night's boat to attend this important session. It is believed that, despite the fact that it is Victoria's turn to manage the yearly competitions, they will make no effort to bring it to Clover point, realizing that it would be impossible to accommodate the large number of riflemen who now participate in the event. Naturally, Island marksmen are rather on the raw edge over having to face such a situation, and the delegates went away simply to represent the riflemen of these parts in the drafting of the programme and the outlining of conditions. It is altogether probable that the trio mentioned will refer to Victoria's dissatisfaction during the meeting's progress. Vancouver marksmen, it is held, are interested in seeing the shoot flourish in Victoria. They admit that the strength of the Fifth Regiment Association stimulates their men to bigger efforts. If keen rivalry is likely to be met with from this point the Mainlanders buck up and put themselves in shape to make better scores. Hitherto, Victoria, even though laboring under the severe handicap of a range exposed to the fierce breezes of the straits of Juan de Fuca, has always been able to give Vancouver's contingent an even run for the honors. But there are few youngsters developing to take the places of the veterans, and Vancouver will be just as anxious to see the island boys encouraged as officials of the local club. Hence it is believed that the B. C. A. will unite in a petition for an inland range for the capital.

## ANGRY BECAUSE OF RUNNERS' WIN

Vancouver Athletes Claim That Victorians Loaded Relay Team in Nanaimo Meet—Charge Disproved

Victoria's victory in the relay race at Nanaimo has given rise to some stir in Vancouver. All the papers have come out with statements that the composition of the capital's team was unfair. Basing their case on the false claim that one of the runners is of Ladysmith club, they threaten to protest. The Victorians, however, are not worrying. They say that they didn't do anything but what was justified under the conditions and that Vancouver hasn't any case whatever.

According to the wording of the event it was judged that it was perfectly legitimate to enter a representative city team. It was simply provided that there should be a relay race open to quartettes of sprinters. The Victoria squad, therefore, selected four from their number, as follows: Brook Vale, Victoria Y. M. C. A.; McDowall, who has been living of late at Ladysmith, but is a member of the James Bay Athletic association; Winsby and Sweetney, both of the J. B. A. A. They won out by a margin of about fifteen yards, were given the medals offered despite the protests of the Vancouver athletes, and propose keeping them.

## MOST INTERESTING DERBY IN YEARS

Event Would Have Attracted Record Attendance Were It Not for National Calamity—Dearth of Jackeys

The great national events of the past few weeks have rather served to obscure what is indeed a national event, so far as the sporting world is concerned, namely the Epsom Derby, which is run on June 1, next. In ordinary course of events the race this year would have attracted quite possibly unprecedented crowds, for from the purely racing point of view it is doubtful if so much interest has attached to the event since 1896 when the royal colt Persimmon, beat the favorite, St. Frusquin, by a neck. That contest will live long in racing annals and almost as memorable must be the Two Thousand Guineas of this season, when Nell Gow snatched the verdict by a short head from Lemberg after racing side by side half of the course. It is because these two are so evenly matched that the Derby on Wednesday of the week after next has so keen an interest for racing men. Unhappily though it will not be the great annual picnic for thousands of thousands of enthusiastic legions, for the king is dead—the greatest sportsman of them all—and another rules in his place, the overwhelming sense of personal loss, quite apart from the official period of mourning, will make a sombre enough day of the usual brilliant and gay assemblage on Epsom Downs.

The Two Thousand Again

It is impossible to talk of this year's Derby without referring back to the Two Thousand. It was not only a great struggle between two great horses that the race produced, but

the battle between the respective riders of either was equally well sustained so that the winning jockey and horse had not more than a fractional advantage over the loser. Both horses ran home dead game, each doing his best to win. After the race it was the general opinion that Lemberg would start favorite at Epsom, but there seems no good reason to suppose that he will reverse the running with Lord Rosebery's colt, for Nell Gow has now beaten him twice and should go on improving equally with Lemberg. There is of course nothing between them as it stands and therefore it is impossible to be very confident in favor of either. This is reflected in the latest wagering to hand which puts Lemberg at 2 to 1, and Nell Gow at 9 to 4.

**Dearth of Good Jockeys**

S. Dillon will of course have the mount again on Lemberg while Maher will ride Nell Gow. Largely because of the enforced absence of F. Wootton Maher has had a great winning streak but he has been attended by a great deal of luck. He near as possible let Nell Gow be beaten by the moderate Tressady at the Newmarket Craven meeting and more recently at Chester he had to make a desperate finish to stall off imminent defeat in the Vase by William the Fourth sir shrd l the art thwypmfw in the course of which he so severely punished Mr. Fairlie's crack, that it is doubtful whether he will ever be the same horse again. As Archer had everything pretty much his own way, for riding without an exclusive retainer the American is able to pick his mounts. Good horsemen though he is his reputation is enhanced by reason of the poor lot of boys he finds in the saddle against him. It is claimed that the claims of compulsory education have much to do with the deterioration of English jockeys, for the boys are taken away from the stable just when they should be at school with the horses, and there may be something in this.

**Canada's Entry**

It will be rather interesting to read what Sam Darling, the famous English trainer has to say about Raymond Dales' colt Kel d'Or, which is now on the high seas bound for England. Mr. Dale in an interview said that he had always been a great follower of the Derby races, and he had always hoped to be able to enter a Canadian horse in this event, so as to show the many lovers of horses that good racers can be bred in Canada. He also stated that he hoped that his example would be followed by many Canadian breeders. "Darling," said Mr. Dale, "will be the first outsider who has even touched the colt, as I have always before insisted that nobody but myself should take care of Kel d'Or." Mr. Dale also explained that nobody knew really what the colt is capable of doing, as he has never been tried on the track, because there were no riders in Qu'Appelle, Sask., light enough to give the horse a chance. However, it has been continually exercised and is well developed. Mr. Dale stated that he did not care to talk about the prospects of "winning" the race, but would rather wait and see how things turned out. There is a long time yet, and although the colt does not seem to worry over its past travels, nobody can tell what may happen during the coming voyage.

**At Hoonah Bay**

The steamer Yucatan, recently floated by the steamer Santa Cruz, for which the tug William Jolliffe is on the way north, is at Hoonah Bay, Chicago off Island, not Juneau, as previously reported.

## CHAMPION SAW CHALLENGER BOX

Jack Johnson Attended Exhibition Given by Jim Jeffries in San Francisco Last Evening

SAN FRANCISCO, May 27.—Jack Johnson was on hand to see Jim Jeffries do his boxing exhibition last night. The idea was put into the champion's head by one of the trainers at his camp, and although it was intended more as a joke than anything else, he decided that it would be a good scheme.

"Jeffries certainly would be surprised," remarked Johnson, "if I should show up with some whiskers and suddenly pull them off while he was boxing. But why shouldn't I go and see him box? Of course I have seen him in action before, but then I might like to know what condition he is in. I am not worrying about the fight or about Jeffries, for I expect to beat him, but all the same I think I will be on hand Friday night."

The black fighter dropped back into the road work which has done so much in the way of taking off weight, this morning. Bright and early he was on the park roads with Cotton-Cutler and Berny Purey, and before he had finished had gone the regulation 12 miles.

"That is the work that is taking off the weight for me," he remarked to his friends. "When I reached California I weighed 228 pounds and now I am down to 213 pounds. For the fight I expect to weigh something like 205. You see when I fought Ketchel out here in California I weighed 193, but I have grown heavier since then and my best fighting will be done at 205. I am cutting and drinking just what I please now, so you can see that I can get down to that weight without any difficulty."

Some of the men who were mentioned for the refereeship are still calling upon Johnson, but the fighter declines to talk business with them.

"The referee has been selected," he declared today with some emphasis. "Rickard is just as satisfactory to me as he is to Jeffries. We are the ones to be suited in this matter, and Tex will have to serve. I don't consider there is a chance for anyone else and have told Rickard that I don't expect him to back down."

## DITCHBURN TO REFEREE MATCH

W. E. Ditchburn, of this city, will referee today's league lacrosse match between Vancouver and New Westminster on the former's grounds. He left for the mainland yesterday.

Referring to the referee question, which usually has been a bone of contention between the two rival clubs, the Vancouver Province says:

# A MIRACLE IN MANITOBA

## CAPTAIN BANISTER STRICKEN WHILE IN CAMP

### HAD TO BE CARRIED TO TRAIN. HELPLESS IN BED FOR SIX WEEKS

## "FRUIT-A-TIVES" COMPLETELY CURED HIM AFTER DOCTORS FAILED

Captain Banister's letter reads like a page from the History of Miracles. It is one of the strongest endorsements ever given to any medicine in the world.

Captain Nelson Banister, of Oak Lake, is known from one end of Manitoba to the other—in fact, throughout Western Canada. Naturally, the letter of such a prominent citizen and officer is bound to carry convincing weight with all thinking people.

"Fully appreciating the great benefits that I have derived from using your wonderful remedy, I feel it is my duty to write you a little history of my case and ask you to publish it, for the good of some others that may be today suffering from the complaint that I am happy to say 'Fruit-a-tives' completely cured me of."

About two years ago, while in Camp at Brandon with "A" Squadron, 12th Manitoba Dragoons, I was stricken with Sciatica and Neuralgia of the muscles of the heart. I was so bad that I had to be carried to the train and sent home, and after being again carried from the train to by bed on arrival at Oak Lake, I was forced to stay there six weeks. Doctoring and nursing in time enabled me to get on my feet, but I could do no work, and was about as helpless as when confined to bed. A sample of "Fruit-a-tives" came to our house about time and I tried them. Believe me—that from the first dose I experienced great relief and continued taking them until I was as well and strong as ever. This satisfactory change and restoration to health, I attribute wholly to "Fruit-a-tives," and I never miss a chance to recommend them to my friends and neighbors.

Previous to taking "Fruit-a-tives," my heart was examined by doctors and found to be so weak that it was considered unsafe for me to take chloroform, or any anaesthetic, but since taking "Fruit-a-tives," the heart has become so strong that I was able to have a minor operation on one of my hands and took chloroform without any ill effects. Today the whole family uses "Fruit-a-tives," we purchase them from Mr. Graham, our local druggist, keep them in the house all the time, and just simply could not get along without them. They are the best medicine in the world."

NELSON BANISTER, (Capt. "A" Squadron, 12th Manitoba Dragoons).

Truly, the days of the miracle have not passed away. When these small fruit tablets can do what physicians, with all their skill, cannot do, it does seem almost miraculous. Yet nothing is more logical and scientific than the medicinal action of "Fruit-a-tives."

Sciatica, Rheumatism and Neuralgia in any form are caused by poisoned blood.

It is the duty of the Bowels, Kidney and Skin to rid the system of waste matter, or urea. If any of these organs are weak, the waste matter stays in the system and is converted into uric acid.

It is uric acid which poisons the blood and inflames the delicate nerves, membranes and muscles, causing

what is known as Rheumatism, Sciatica or Neuralgia.

"Fruit-a-tives" promptly cures these troubles because "Fruit-a-tives" cures the Bowels, Kidneys and Skin. "Fruit-a-tives" makes these three great eliminating organs well and strong. And when the waste of the body is regularly disposed of, there can be no excess of uric acid.

"Fruit-a-tives," as Captain Banister says, "is the best medicine in the world. It is made of fruit juices and valuable nerve and heart tonics, and is pleasant to take."

50c a box—\$6 for \$2.50, or trial box, 25c. At dealers, or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

## Canadian Made

No doubt you will agree that if quality and price are equal every Canadian should buy Canadian made goods in preference to any others.

Not only is it patriotic—it's sound common sense. The money spent for Canadian goods goes to build up Canadian industries and prosperity, and makes it easier for every Canadian to earn a good living.

On the other hand, money spent for foreign made goods goes out of the country to pay foreigners—not to benefit Canadians.

# NA-DRU-CO

Toilet and Medicinal Preparations are compounded in Canada from the purest ingredients which money can buy. The National Drug and Chemical Company of Canada returns to Canadians in employees' salaries, dividends and other expense disbursements, close to One Million Dollars a year. In addition to this we spend millions every year in Canada for raw materials, tins, bottles, labels, boxes and other supplies, giving employment to hundreds of Canadian tinsmiths, glass workers, paper makers, printers, lithographers, box makers, and others.

So even if NA-DRU-CO goods were only "just as good" as those imported from other countries, you would be following a sensible and patriotic course in buying them.

As a matter of fact, though, NA-DRU-CO Toilet and Medicinal Preparations are better than those imported. Try NA-DRU-CO Talcum Powder, NA-DRU-CO Greaseless Toilet Cream, NA-DRU-CO Tasteless Cod Liver Oil Compound or any other NA-DRU-CO preparation, and see for yourself.

You risk nothing in making the test, for if the NA-DRU-CO article does not entirely satisfy you, return it and your druggist will refund your money.

## PUMP COMPANY WANTS LOCATE HERE

Efforts of Development League Attract Attention of Industrial Firms Who Contemplate Extension

Through the energetic campaign of the Vancouver Island Development League it is probable that the future will see a number of new industries established in Victoria. Special attention is being paid in the advertising propaganda being carried on to interest manufacturing firms in the desirability of Victoria as a location for enterprises of different kinds.

Among the latest enquiries received is one from the Moline Pump Company, of Moline, Illinois, a firm which is seeking a new location for the establishment of a factory to manufacture a line of gasoline engines and pumps. The firm states that it would require 60,000 feet of floor space to accommodate the factory.

The American pump firm states that in the event of a branch establishment being located here it would be necessary to form a new company and information is sought on the prospects of Victoria, parties interesting themselves in stockholders.

The object in coming here is to supply the Canadian trade without paying duty, and at the same time use the present Moline patterns for making the products.

The Moline Pump Company is being informed of the prospects and probable inducements which can be held out to secure its establishment in Victoria.

**Wheat King Talks of Retiring**

CHICAGO, May 27.—That James A. Patten, the wheat king, will retire from business permanently July 1st was the authoritative announcement made today. The fact that Patten's previous announcements of proposed retirement have been followed by coups in the market is causing his opponents to wonder what new grain option he is planning to corner. Patten said that he intended to rest during the summer and to go to Europe next fall. He admitted that he might trade a bit "just for amusement," after discontinuing active operations. The speculator announced that a new million dollar corporation to be known as Bartlett, Prazier & Co., would succeed to the business of Bartlett, Patten & Company.

**TENNIS CRACKS AND DAVIS CUP**

NEW YORK, May 27.—The recent sudden departure of Beals C. Wright for England has focused the attention of American tennis players on a situation of much uncertainty and no little delicacy.  
 Rumors have been persistent that Wright, who will lead any American team that may compete for the Dwight F. Davis International cup, now held in Australia, hopes to bring back the preliminary match with Great Britain to this country. Officers of the United States Lawn Tennis association denied this today and insisted that Wright had sailed on his own initiative, and the association knew nothing of his plans.

An officer of the association who also belongs to the international tennis committee, was very pessimistic today on the whole outlook. The Englishmen, he said, had positively refused to come to this country. On the other hand, it would be difficult to pick an American team to visit England. It would be easy to get a first-class team to go to London, but if the team should win it must then continue to Australia, and few players feel that they can spare the time for the latter trip.

Passengers for Canada

LONDON, May 27.—The Royal

## Fire Sale

That means bargains. We have some. Read this:

## FORT GEORGE

The Hub of British Columbia, will be a large manufacturing and agricultural centre. Everything tends to make it so. Large areas of agricultural land. Large deposits of mineral and plenty of merchantable timber, besides being the head of over 600 miles of navigable water upon which five steamers are plying, with three more to be added this summer. It will also be the divisional point of the Grand Trunk Pacific Railway and the terminus of a number of railways running through the province.

### The Collins Addition

The subdivision we are handling is considered by people who have been on the ground as the best there, and our prices are right—only \$150 for a lot 50 x 125 feet. Terms: Quarter cash, balance 6, 12 and 18 months, 7 per cent. interest.

## We Offer Small Investors Vancouver Inside Property

Mr. Conservative Investor, you who never take a long chance, you who cannot afford to gamble in stocks, real estate or anything else where there is a chance of losing your money, and yet who are not quite satisfied with the usual 6 or 8 per cent. paid by the usual gilt edged securities, you are the man for whom this ad is written.

If you can buy an interest in a property for \$1,000—collect \$300 annual revenue, and then find that your property has grown in value to \$3,000—that's making money pretty fast, isn't it?

Do you know, there are up-to-date buildings in this city which are paying their first cost back every three years? Yes, and the owners are men who never take a chance either.

But the average investor cannot take advantage of the opportunities to invest in such property—the initial outlay is too great—except on one system—co-operation—business units—our system.

Listen: The Pacific Investment Corporation, Ltd., own the very finest Apartment House site in this great city—double corner of Davie and Jervis streets—cost them \$25,000 three months ago—is worth \$35,000 today—but it's not for sale.

They are erecting thereon the very finest and most up-to-date apartment building in western Canada—bar none, mind you—and on the Business Unit System—true co-operation—estimated cost for building and land \$135,000. Plans and specifications for this beautiful building are finished—cut appeared in the Province the other day—and work has started. The building will be rushed to completion this year.

The company has authorized us to place on the market 750 business units—\$100 each—\$25 cash balance in 2, 4, and 6 months, without interest—and the last few weeks has seen about six hundred of them taken up by some of the shrewdest investors in the city.

Briefly: Total estimated costs ... \$135,000 00  
Less loan now provided for ... 60,000 00  
Cash capital required ... 75,000 00  
Gross revenue, estimated ... 36,720 00  
Less interest, taxes, etc. ... 14,220 00  
Available for annual revenue at 30 per cent ... 22,500 00

If you figure your money as worth 10 per cent., these units will be worth at least \$300 in one year; if your money is worth only 6 per cent. they ought to be worth \$500. Naturally they are being taken up very rapidly. Write at once for further information.

When Feeling Tired, Visit  
Our Tea Rooms, Third  
Flr. Tea Daintily Served

Today You Can Select a Stylishly-Trimmed Hat for Street Wear at Exactly Half Price. Usual Val. \$12.50, now **\$5**

If you once set eyes upon these beautiful hats, you would not hesitate a moment in purchasing one. They are really exceptional value at the regular price, but, of course, the season is rapidly passing along, so we have decided to make a special clearance of them today. These include some of the very smartest effects of the season, very daintily trimmed with ribbons, silk and feathers—in fact, there is a hat to suit every face in the assortment, and are such as will gain favor with the most discriminating and exacting. Reg. \$12.50, today, **\$5.00**

## Let the Vacuum Cleaner Do Your House Cleaning

You will find it not only the very best and most sanitary system, but also the most economical way. No beating the carpets and wearing them out, no uplifting of them, leaving the edges all torn, but instead every particle of dirt is taken out of the house by means of suction, thereby ensuring cleanliness. Better ring up our Carpet Department. Prices most moderate.

## Ladies' Linen Costumes---A Splendid Bargain, Today. Reg. \$12.50, Your Choice, \$7.50

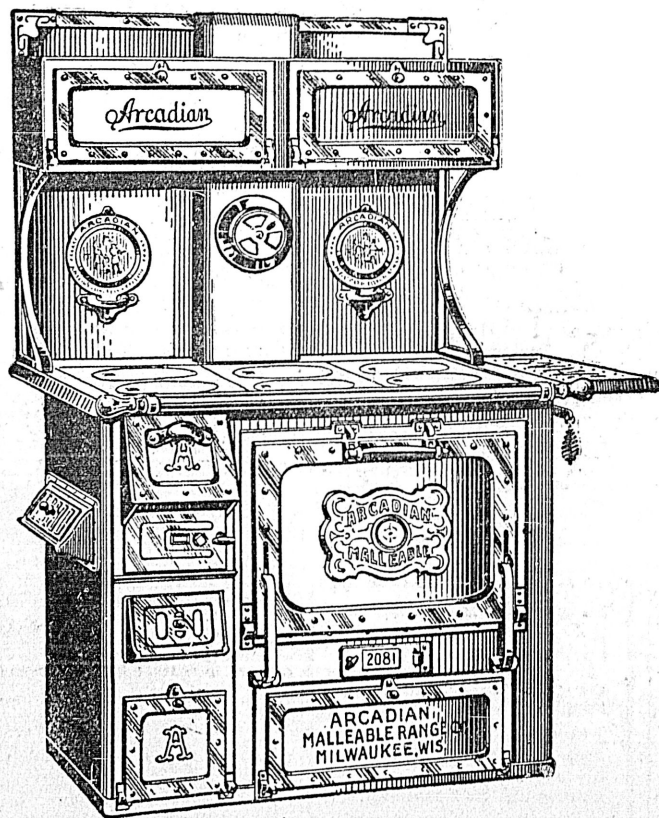

To say the least, at \$12.50 these suits were considered extra good value, but at \$7.50 they are value extraordinary. A good linen suit is a necessary adjunct to the lady's wardrobe these days. Here you can purchase one in any shade desired, and at a considerable saving. The values run as high as \$12.50. Your choice today at ..... **\$7.50**

## A Special Display of Ladies' Neckwear at 25c

The Centre Aisle of this store is certainly showing some very handsome Neckwear, and what is most surprising is the extreme moderation of prices. Dutch Collars and Jabots are the predominating style, and these we are showing in endless array, also a very wide variety of new and exclusive ideas, mostly made of extra fine Washing Lawn, embroidered and trimmed with Valenciennes lace and insertions. These are about the best values we have offered. Every table has something different, and at ..... **25c**

## Ladies' Kid Gloves at \$1.00 per Pair

Perrin's Marchioness Kid Glove is the best \$1.00 glove sold in Canada. Try a pair on our word and become a constant wearer. Every pair guaranteed. In shades of tan, brown, grey, green, navy, beaver, mode, black and white. Pair **\$1.00**

## A Continuance of Our Dress Goods Remnants Sale for Today. Reg. Values \$1.50 to \$1.75, Today, 50c .

All day yesterday this department was crowded with enthusiastic purchasers. Hundreds of these remnant lengths were disposed of. But despite the tremendous selling, there are still a number left, representing nearly every known weave. These remnant lengths range in lengths of three to seven yards; in widths of from 52 to 54 inches, and which we regularly sell at \$1.50 to \$1.75 per yard when cutting from the bolt. But to clear every short length out, we have marked them down to **50c**
